

# Security Assessment

Analysis of your business' cross platform security posture, evaluating vulnerabilities and identity risks with recommendations to mitigate.

As a trusted Microsoft Azure Expert Managed Service Provider, Coretek has extensive experience administering Azure assessments, executing highly secure Azure migrations, GCC (Government Community Cloud), and GCC High Microsoft 365 migrations. Our Security Assessment is an analysis of your cross-platform security posture, evaluation of vulnerabilities and identity risks, and provides recommendations to mitigate the identified risks.

## Our Assessment Process

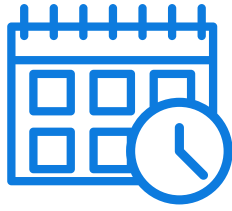

**Strategy & Plan Workshop** to identify your business priorities, timelines, and milestones in the upcoming year for successful secure cloud adoption. Review Zero Trust Framework.

**Review O365 & Azure Secure Scores** with a certified security partner and provide recommendations to improve. Secure Score looks at the resources created in Azure and multiple areas within the Office 365 and Azure Active Directory environment.

**Review Software, Server, and Desktop Assets** to identify unsupported desktop and server operating systems, unmanaged devices, and user vulnerabilities.
