

# WINDOWS 10 TO WINDOWS 11 FOUNDATION MIGRATION WORKSHOP

## PREPARE FOR THE FUTURE: SEAMLESSLY TRANSITION YOUR ORGANIZATION TO WINDOWS 11

With Windows 10 reaching its end of life in October 2025, organizations must start planning their migration to Windows 11. Coretek's Windows 10 to Windows 11 Migration Workshop helps IT teams smoothly transition, ensuring minimal disruption to business operations.

### Our Offer

Our workshop equips organizations with comprehensive expertise and strategies for a seamless migration to Windows 11. We guide your team through each critical phase, starting with detailed planning and assessments of your current environment. We ensure smooth execution, proactively addressing potential challenges to minimize disruption. Throughout the transition, we provide expert management and optimization, ensuring every aspect is handled efficiently to position your organization for long-term success.

### Benefits

- Validation of Microsoft licensing requirements
- Assessment of current environment (workstations, applications, dependencies)
- Identification of potential challenges and solutions
- Creation of a high-level migration roadmap
- Identification of tools and resources for a successful migration

### Microsoft Platforms and Tools

- Microsoft Windows
- Microsoft 365 E3 / E5
- Microsoft AVD & Cloud PC / Windows 365
- Microsoft Intune and Configuration Manager
