

# Windows 365 Cloud PC Jump Start

## Our Cloud PC Jump Start

Windows 365 combines the power and security of the cloud with the versatility and simplicity of your PC. Windows 365 enables a variety of new scenarios for our new world of work. Our Jump Start engagement helps your business start using Microsoft's Cloud PC in a pilot form so that you can immediately see the benefits of adoption for your users.

## How It Works

Our Solution Architects work with you to determine your use cases and current environment. Then we build a pilot that fits your needs perfectly. Finally, your team will demo and test the subscription-based Cloud PC service to see how it works within your environment.

**Personalized  
Cloud PC**

**Simple, Powerful,  
Secure**

**Stream to Any  
Device**

# Power & Security of the Cloud Versatility & Simplicity of your PC

## Windows 365 Cloud PC Jump Start Includes:

### 3-day Engagement

- Review of current Windows 10 licenses and options available
- Review Cloud PC level options
- Review & setup on-premises network connections for Cloud PC to allow the Cloud PCs to:
  - Be provisioned
  - Be joined to your local AD
  - Provide access to local resources
- Setup initial provisioning policy for new Cloud PCs
- Create M365 groups for provisioning
- Review Cloud PC access options: browser, remote client, etc.
- Provide an overview of Microsoft Endpoint Management (MEM) of Cloud PCs

### Final Deliverables

- A full Windows 365 Cloud PC operational pilot
- Ability to demo and test in your environment with your team
