

App in a Day

Digitise processes, work more efficiently, become paperless

If you are new to Power Apps; then this is the workshop for you! Learn how to create a Power App, with our hands-on 'App in a Day' 1 day instructor-led workshop.

Run by our Power Platform technical specialists, you'll discover how to create custom business applications using a no-code/low-code first approach. As part of the workshop, you'll learn how to create sophisticated business applications and leverage complex data relationships within your applications.

In addition to knowing how to create your first Power App, we will teach you how to connect your apps to a variety of data sources, including Microsoft Dataverse- Microsoft's low-code (yet powerful) database. We'll also highlight the benefits of

<p>Get up and running, quickly!</p>	<p>Build apps without compromises.</p>	<p>Adapt now! More than ever.</p>
<p>Increase agility across your organisation by rapidly building low-code apps that modernise processes and solve business challenges.</p>	<p>Give everyone the power to build the apps they need with functionality previously only available to professional developers.</p>	<p>Work together to meet challenges effectively. Reduce development costs and increased overall efficiency using Power Apps</p>
