# Microsoft 365 Compliance & Information Protection

**Compliance and Information Protection begins with knowing your data, and regulatory obligations.**

Protecting and governing your organisation's information is a daily challenge. Cloud technology has transformed how you work through increased agility, collaboration, and scalability. New and hybrid ways of working makes compliance and information protection more crucial than ever before.

CPS works with you to discover and classify your data, apply protection, and monitor and analyse your sensitive information for data loss and leakage prevention (DLP).

**Discover, Protect and Govern your data with Microsoft 365 Compliance tools.**

**Microsoft 365 Compliance provides complete visibility and control of your organisation's data throughout its lifecycle.**

**This engagement is for new and existing Microsoft 365 organisation of all sizes to define a modern Information Protection & Governance posture.**

CPS' Microsoft Certified team works with your IT and Security & Compliance teams to ensure that you:
- Comply with internal policies, industry and government regulations
- Protect your sensitive data from loss and leakage
- Secure your identities with modern authentication

## What can be included

- Data Classification
- Sensitivity labelling and policies
- Data Loss Prevention (DLP) policies
- Retention labels and policies
- Records Management

"
Cyber security has been a major news item during the past year. Microsoft 365 Security, Compliance and Identity is part of how organisations can keep ahead of bad-actors.
**Peter Rising, MVP & Head of SCI, CPS**
"
