

Flow In A Day

Automate and optimise your business processes

If you are new to Power Automate; then this is the workshop for you! Learn how to create a Power Automate 'Flow', with our hands-on 'Flow in a Day' 1 day instructor-led workshop.

Microsoft Power Automate streamlines organisations with business processes automation, increasing productivity and saving time by automating repetitive tasks, such as: sending alerts, approving requests and collecting data, as well as removing human error from your processes.

 <p>Automate quickly and more securely</p> <p>Empower everyone to build automated processes with flows in Power Automate. Use low-code, drag-and-drop tools and hundreds of prebuilt connectors that automate repetitive, mundane tasks with ease.</p>	 <p>Boost productivity</p> <p>Record and visualize your end-to-end processes with process advisor, providing guided recommendations for creating flows and deep insights that take the guesswork out of what to automate.</p>	 <p>Put intelligent workflows to work</p> <p>Make your automation even smarter with AI Builder. Quickly process forms using document automation, process approvals, detect images and text, or create with prebuilt models.</p>
