

Hybrid Meetings with Microsoft Teams Meetings ●

Bridge the gap between people working remotely and those in the office with Microsoft Teams Meetings- allow everyone to be seen, heard, and fully participate from anywhere.

Video conferencing

Make teamwork feel more personal by communicating face-to-face in online meetings.

Virtual events

Hold secure web meetings and webinars for up to 1,000 attendees and broadcasts for up to 10,000.

Audio conferencing

Join meetings with a mobile device, a dial-in number, and an online meetings app such as Microsoft Teams.

Meeting devices

Get additional capabilities from devices such as a speakerphone or room system designed specifically for Teams.

Stay in the flow of work with Microsoft Teams Meetings

Video Conferencing

Meet, collaborate, and work securely from anywhere with Microsoft Teams.

- Recordings – Record meetings using the Teams App.
- Chat – Chat with participants, before, during and after.
- Live Captions – Turn on captions during a video call for added clarity.
- Raise your hand – Use the raise hand button to talk or ask a question.

Virtual Events

Meet with customers and your organization anywhere. Connect with audiences through engaging webinars and events with up to 1,000 participants.

- Deliver more engaging webinars.
- Easily set up and host – Support for multiple presenters and interactive participation.
- Engaged audience – Use presenter modes, combined with backgrounds and content.
- Follow-up with attendees – Access reporting and attendee information using Dynamics 365.

Audio Conferencing

Use a global dial-in number to join a meeting from virtually any mobile device or dial out to help others join a meeting. Recordings – Record meetings using the Teams App.

- Join Microsoft Teams meetings on the go, without an internet connection.
- Dial In - Join the audio portion of meetings by dialling a tolled or toll-free phone number and entering a PIN.
- Dial Out - Connect others to the audio portion of your meeting by dialling out using the Microsoft Teams app.

Why choose CPS as your Microsoft Teams Meetings partner?

A Microsoft Gold Partner, we hold the Microsoft Gold Cloud Productivity Advanced Specialisation for Meetings and Meeting Rooms for Microsoft Teams.

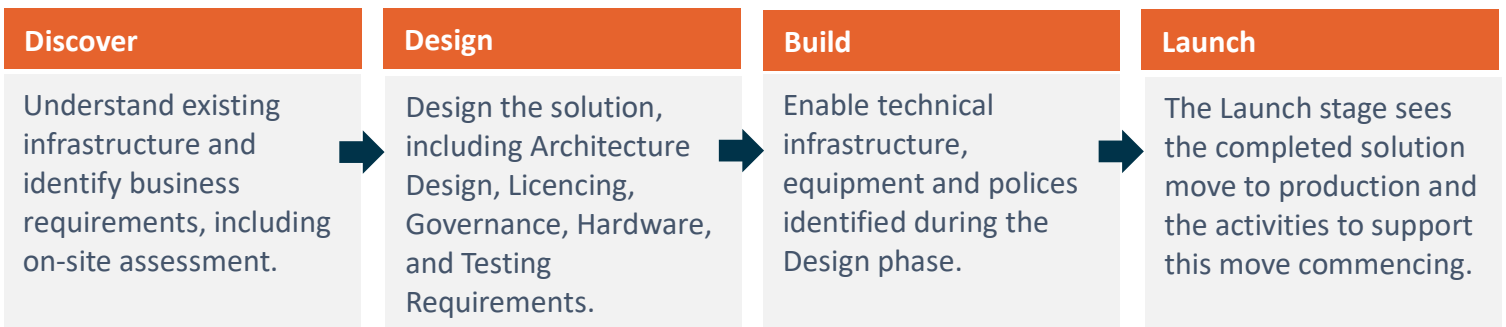

We are also a prime partner to Microsoft Teams Room vendors. We are certified and accredited to design, plan, deliver and support the most complex global deployments within Microsoft Teams across both Yealink and Poly room kit solutions.

Benefits

- Host secure Video Conference calls with your employees and customers.
- Deliver engaging webinars to your customers using Teams Virtual Webinars.
- Join meetings with a mobile device, without needing an internet connection.
- Enhance hybrid meetings with additional capabilities from devices such as a speakerphone or room system designed specifically for online meetings.

Delivering workplaces that are inclusive and enabling, with the use of Microsoft 365.

Partnering with leading Unified Communications partners

Our Mission

Our mission is clear, to enable our clients to achieve their strategic priorities, through the delivery of business solutions that are delivered on Microsoft Cloud technology.
