Microsoft Priva - Subject Rights Requests.

Worldwide privacy regulations dictate that individuals (also referred to as data subjects) have the right to request the ability to review and/or manage any personal data pertaining to them which companies have collected and may be holding. Organisations that store large amounts of information may find it challenging to find the relevant data when a data subject request is made.

With **Microsoft Priva – Subject Rights Requests**, such queries can be handled with workflow, collaboration, and automation capabilities. CPS can empower your organisation to meet these challenges and:

- Search for data
- Review findings
- Collect the appropriate content and produce reports

Microsoft Priva – Subject Rights Requests supports organisations to gather data, collaborate, review, and create reports. This process enables the data subjects right to access, right of data portability, and the right to be forgotten.

Manage Subject Rights Requests at scale	Review data, and detect and flag conflicts. Annotate and redact, and securely deliver content to data subjects

CPS - Subject Rights Request Service

CPS' Microsoft Priva – Subject Rights Request service is designed to define your organisation's strategy to effectively respond to requests from data subjects to review or manage their personal data. Our Microsoft Certified team works with your Business, IT, and Compliance teams to:

- Create request and collect data
- Use data matching to identify data subjects based on exact supplied data values
- Review data and collaborate on requests
- Fulfil requests using tools to create reports and collect files to send to data subjects
- Automate tasks using Power Automate

What's included:

- Purchase the licenses in blocks of 1, 10, 50, or 100
- Data collection
- Data matching
- Task automation

> "An effective modern data management strategy is essential to any organisation holding or processing any personal information, to ensure best practice and compliance with industry regulations such as GDPR
> - **Peter Rising, MVP & Head of SCI, CPS**"

Example Engagement
