

# Trisus<sup>®</sup> Supplies Assistant

Trisus Supplies Assistant will ensure proper revenue reimbursement and compliance by providing coding recommendations. The application provides direct access to our data experts where they review your personal request on existing or new supply coding recommendations.

It's the foundational data that feeds into our Supply application, Trisus Supply. In Trisus Supply you can resolve underlying issues caused by gaps between materials management and billing systems.

**Who would benefit?**

Trisus Supplies Assistant reduces the time hospital staff spends researching HCPCS codes for implants and devices to mere seconds. For hospitals that add new supplies daily, this time savings quickly turns into tangible labor savings.

## Specific Functionality

Offers the most current HCPCS codes, revenue codes, UNSPSC codes, supplier, supply description, catalog ID, status indicator, GUDID FDA resources and reimbursable recommendations for your supply items.

## Why is it valuable?

Provides one place for all of your Supply resources, eliminating the need for multiple applications

Our Data Experts, with over 50 years of experience provide additional supporting documentation on coding recommendations

Increases productivity and decreases staff labor by eliminating time consuming web searches

Offers access to over a million supply records with up-to-date coding information

Provides access to our all-inclusive supply catalog including implants and devices

## What Our Customers are Saying

"Trisus Supplies Assistant is a helpful resource in looking up information on supplies in a timely manner."

"It has assisted greatly with helping me feel comfortable that my charges are being set up correctly with the appropriate Rev codes and possible HCPCS."

"When someone asks me a question, I tell them to check Craneware Trisus Supplies Assistant first – as this is the source of truth."

"I cannot do my job without having Supplies Assistant, so I went to Trisus and opened SA there. I need Supplies Assistant every day."
