

closing the gap on hospital drug billing claims with **Trisus[®] Medication Claim**

Trisus Medication Claim is a pharmacy claim-focused, SaaS-based solution to help reduce denials and improve processing. Of the claims processed through the app, 76% require intervention on average:

Don't just take our word for it.

According to a 2017 analysis by Change Healthcare, an estimated \$262 billion of the \$3 trillion in claims submitted by hospitals in 2016 were initially denied.

The study also found that on average, 63 percent of denied claims are recoverable, but providers nationwide spend as much as \$8.6 billion in appeals-related administrative costs — or about \$118 per claim.

"Trisus Medication Claim has afforded us more than we could have imagined. First and foremost is the confidence that our claims are being handled properly. Second is the time savings it has provided. It's a godsend to me, and I am grateful for it every single day."

340B Program Coordinator

"Now in my 40-hour week, I might spend 1 or 2% of my time running Trisus Medication Claim, as opposed to 50% manually modifying claims. I'm sure it has saved us hundreds of thousands of dollars in man hours and allowed our staff to do other things that are much more important for both the hospital and our 340B program."

Pharmacy Regulatory Specialist

Maximize your reimbursements. Minimize your exposure. **Trisus Medication Claim.**
