

Trisus® Pricing Analyzer and Transparency

Maximize pricing transparency and optimize pricing strategies

Trisus Pricing Analyzer and Transparency provides the functionality to meet your current pricing challenges

Comprehensive & Defensible Pricing

- Reviews peer pricing
- Adjusts pricing while remaining competitive

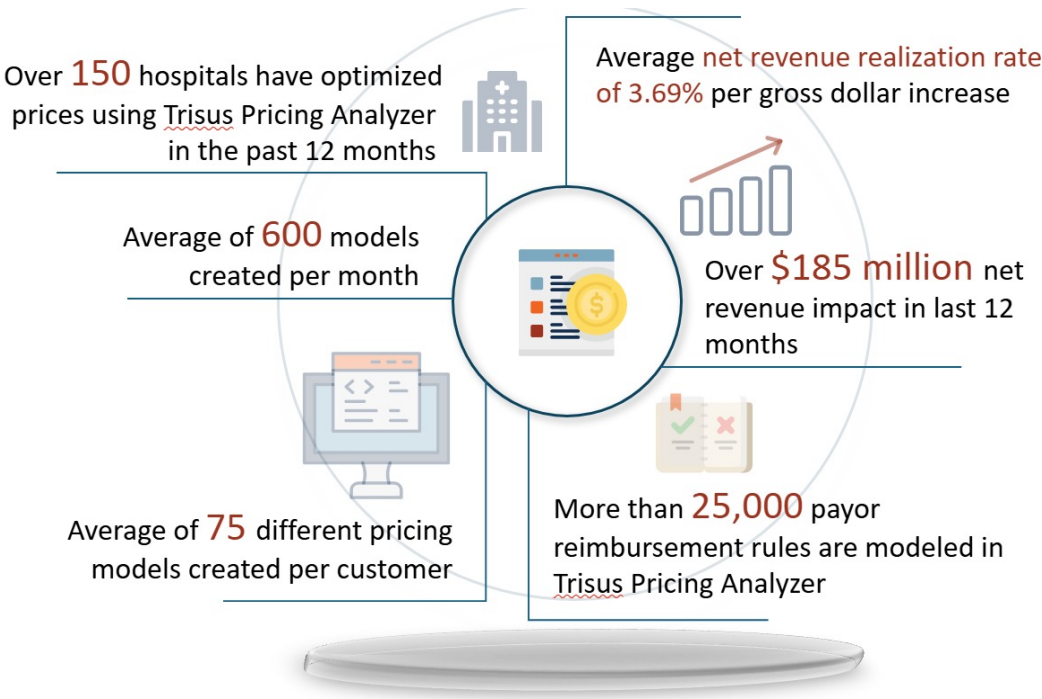

Reimbursement Modeling

- Automates strategic price modeling
- Adapts to payor and competitive conditions

Pricing Transparency

- Automates Machine Readable Files (MRF)
- Hosts shoppable services sites

Enhance your Pricing Strategy

THE IMPACT: Increased net revenue to better serve your community while ensuring compliance and competitiveness

Our Pricing Transparency solution:

- Reduces the manual burden of creating CMS compliant machine readable files (MRF) with automation
- Leverages Trisus Pricing Analyzer and Transparency to understand peer hospital pricing related to shoppable services
- Hosts shoppable services site
- Ensures compliance with federal transparency requirements

Professional Management of Pricing Operations

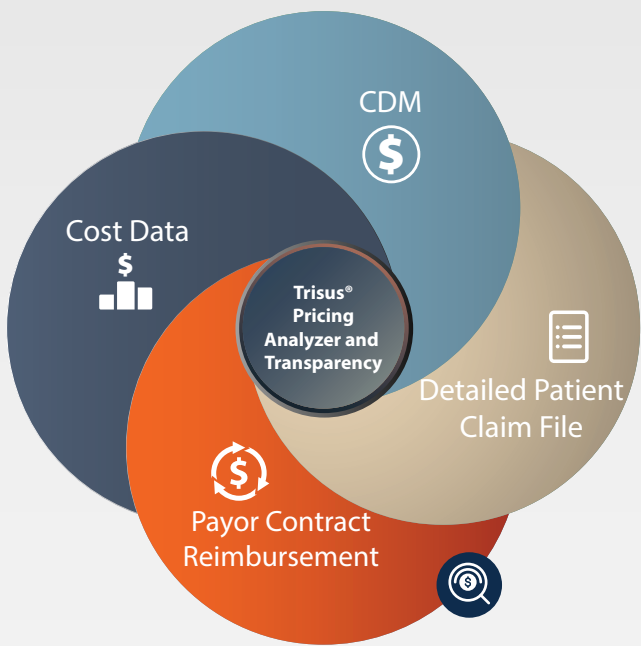

Reimbursement Model Maintenance:

- Managing the input of complex payor terms
- Handling contract modifications, additions, and removals

Professional Consulting Services:

- Revenue Analytic Support Service
- Strategic Pricing Review

Make Informed Pricing Strategy Decisions
