Crayon Data & AI Solutions

CRAYON DOCUMENT INTELLIGENCE ACCELERATOR

Solution Highlights & Benefits

Input: Handles any document format and understands the semantics of the information contained

Output: Extraction approach with output formatted to your desired structure (schema)

Privacy by default: Memory less solution with no need to persist input or output

Elasticity: **Serverless solution,** scalable to process thousands of documents a day

Training: Out of the box generative AI-based solution without the need for data labelling

Customisation efforts: Minimal efforts in terms of finetuning the models as required

Connectors: 100+ pre-built Power Automate connectors

Identity & access management: Integration into Microsoft Entra ID

Key Benefits

Enhanced Data Extraction: Extract relevant insights from large and specific data sets, transforming information into actionable insights.

Tailored Document Creation: Generate new purpose-built documents or records based on specific needs, ensuring custom-fit solutions for various use case

Automation of Processes: Automate the extraction, summarization, and comparison of data, reducing manual effort and increasing efficiency

Improved Decision-Making: Access comprehensive, well-organized insights that enable faster and more informed decisions.

Human Error Minimization: Reduce errors by relying on automated processes for data handling, ensuring greater accuracy and reliability.
