Crayon Cloud-iQ

Crayon's Cloud-iQ is a self-service platform, where you can manage Cloud products, services, and economics cross multiple vendors through a single pane. Cloud-iQ provides instant access to cloud services, comprehensive live spending reports and flexibility to adjust services and costs as you go.

What does Cloud-iQ do?

The Cloud-iQ platform is Crayons Cloud Services self-provisioning platform, offering best-in-class capabilities for managing your Cloud services. The portal will let you order and manage Cloud software and resources from multiple vendors such as Microsoft, Amazon and IBM.

What benefits does Cloud-iQ give you?

- Simplify your order and management processes
- Control your Cloud usage and spending through centralized procurement cross vendors
- Instant provisioning of subscriptions and licenses
- Lower costs by reducing software surplus spending
- Reduce the time you spend on consumption management
- Reduce time spent on administration
- Access to comprehensive BI reports for usage and billing management

Cloud-iQ key features

You will find the following key features in Cloud-iQ:

- Self-service provisioning of Cloud services and products
- Adjust and manage subscription plans
- Instant access to new subscriptions and licenses after provisioning
- View service catalogue and prices
- Cost calculated on daily basis for license-based services, and actual usage for consumption-based services
- Billing management
- Easy access to service management
- View live cost reports on Usage-based services
- Set thresholds and get spending notifications
- Place support requests and order add-on support
- Ability to have multiple user accounts, and manage your own accounts to suite the business need

Cloud-iQ Developer API

Crayon offer Cloud-iQ APIs that enables customers to connect their portals/systems to Crayon's systems.

The APIs helps Cloud-iQ users manage subscriptions, get products and prices, get usage and billing data and much more.

Our APIs essentially lets customers have access to the same functionality they have when logged in to our Cloud-iQ portal right from within their own internal systems.

JOINT GOALS
Joint Success

Crayon Cloud-iQ takes care of the hazards and makes the complicated simple, allowing you to focus on your business, instead of worrying about processes and manual software management.

Make your way, the Crayon way.

Contact your Crayon representative or local office to learn more about Cloud-iQ and Cloud Services available for you.
