# Microsoft 365 User Adoption Service

Crayon's Empower-iQ service provides learning and adoption of Microsoft technologies.
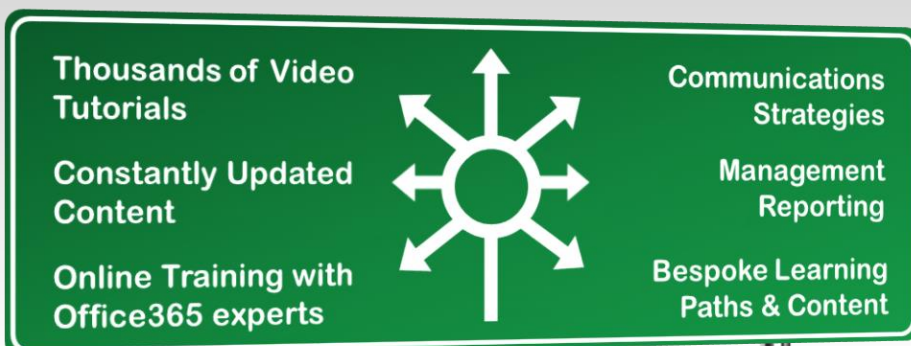

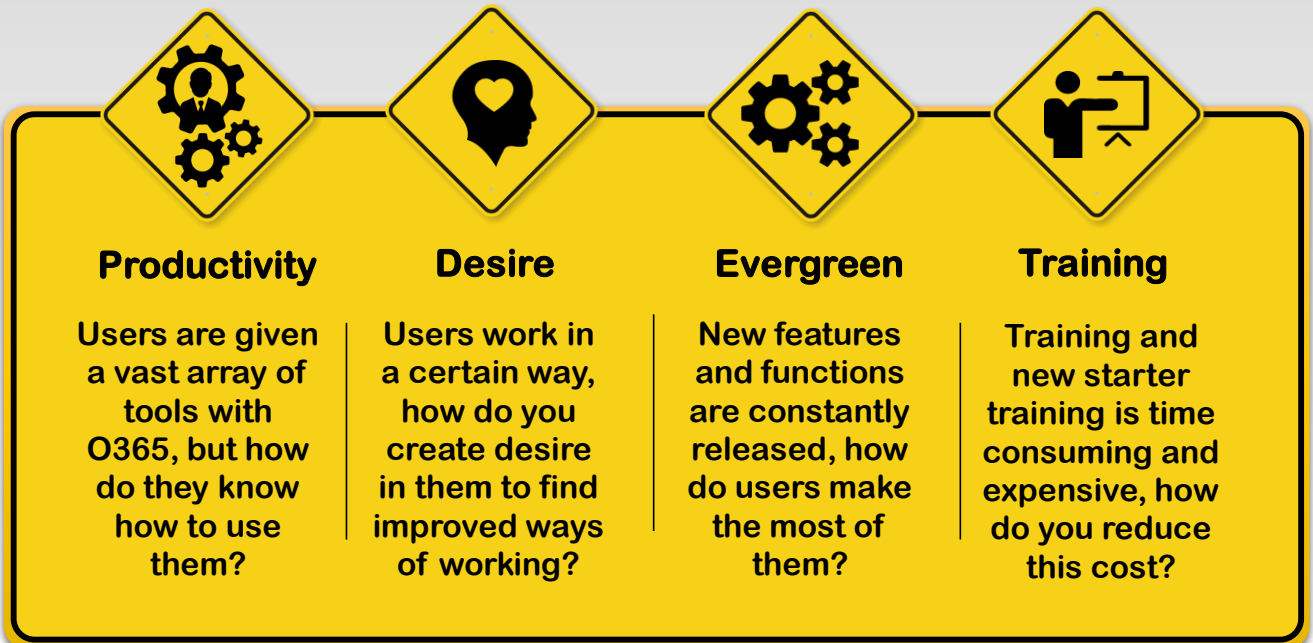

Achieved by utilising the principles of change management and 'the' premier online learning and adoption platform.

Empowered Users

Crayon's Empower-iQ service helps your organisation and employees to get the most from your investment in Microsoft technologies.

Empower-iQ is an end-to-end service which not only drives initial adoption but provides a sustainable platform to support ongoing learning and development, driving measurable, companywide, productivity, communication and collaboration.

Empower·iQ - Essential when deploying Office365:

Productivity

Users are given a vast array of tools with O365, but how do they know how to use them?

Desire

Users work in a certain way, how do you create desire in them to find improved ways of working?

Evergreen

New features and functions are constantly released, how do users make the most of them?

Training

Training and new starter training is time consuming and expensive, how do you reduce this cost?

Bespoke Learning Paths & Content

Empower·iQ

All routes lead to the world's most comprehensive Microsoft focused learning and adoption platform

## Empower-iQ is based on two key streams:

1. Practised Consultancy – working with employees creating the 'desire' to work in new and improved ways.

2. Learning and Adoption Platform – Anywhere, anytime learning, made relevant to each employee based on how they work, the applications they use and organisational priorities.
