

Optimize your Azure costs... **Manage your cloud spending and focus on what matters most to your business.** This comprehensive assessment will use your real-time data to determine the best plan of action for your business. This process will clearly demonstrate and financially quantify the business value of optimizing your cloud environment. Two Crayon companies [Crayon and Anglepoint] are named in the Gartner Magic Quadrant for Software Asset Management Managed Service.

The Crayon Azure Software & Cloud Economics Assessment provides you with a one-time independent assessment of your current Azure Cloud Cost Control practices.

It gives you insight into concrete actions that could help realize Azure cost optimization potential, based on best practices from thousands of successful projects.

Crayon Software & Cloud Economics Assessment for Azure gives you a basis for solid governance to help ensure budget predictability, better ROI and direct savings.

We help you optimize to innovate.

- Current monthly Azure consumption and cost per resource, tag or subscription
- Potential for the use of owned licenses in Azure (e.g., Azure Hybrid Use Benefits or Bring-Your-Own-License model)
- Use of Test/Dev environments
- Azure recommendations and unattached or unmanaged resources
- Existing Azure governance and cost control practices.

Your Journey

Workshop

Assessment

PoC

Implementation

Our Process

The assessment has three phases:

Phase 1  1-2 weeks

 1. Planning

 2. Data Collection

Phase 2  3-4 weeks

 3. Data Analysis

Phase 3  1-2 weeks

 4. Final Recommendations

Deliverables

During the assessment, you will have access to Power BI reports that include:

- Azure Spend overview
- Product Cost overview by service category
- Azure Cost details
- Azure Virtual machines overview

As a deliverable you'll get access to a Full Analysis Report that includes:

- Azure Spend overview
- Cost optimization details
- Governance
- Recommendations and a detailed list of actions

Price can vary depending on your environment and actual work time.
