Diggspace's most recent Features

Team Channels & Granular Permissions

The new granular content permissions let you control precisely who can create, edit, or manage portal content in each channel, streamlining workflows and avoiding content sprawl or endless approvals.

Microsoft 365 Search

With Diggspace you can now search Microsoft 365 files and information directly in the platform — access critical documents and data from a single, unified interface.

Customize Diggspace

- Make the portal unmistakably yours.
- Change the logo, icons, and theme colors.
- Create distinct spaces for each company in your group.

The image displays three overlapping screenshots of the Diggspace intranet interface, illustrating how it can be customized for different companies. Each screenshot shows a distinct header with the company logo and name, a navigation menu on the left, and a personalized dashboard.

- SunRoute TOURS:** The top screenshot shows a header with the SunRoute TOURS logo and a "Global" dropdown menu. The navigation menu includes items like Apps, Collaborators, Documents, My 365 Groups, Learning, and Approval Requests. The dashboard area is partially visible.
- SafeGuard INSURANCE:** The middle screenshot shows a header with the SafeGuard INSURANCE logo and a "Global" dropdown menu. The navigation menu includes items like Apps, Collaborators, Documents, My 365 Groups, Learning, and Approval Requests. The dashboard area is partially visible.
- diggspace:** The bottom screenshot shows a header with the diggspace logo and a "Global" dropdown menu. The navigation menu includes items like Apps, Collaborators, Documents, My 365 Groups, Learning, and Approval Requests. The dashboard area is fully visible, featuring a personalized greeting "Hi Nicholas!", a "Welcome to your new digital workspace!" message, and several widgets: "My Dashboard 365", "Favourite Apps" (with Teams), "Quick Access" (with Upcoming events), and "Latest awards".

Make the Most of Microsoft 365

- Add Diggspace events to your Outlook calendar with one click.
- Find your Groups and jump straight to SharePoint sites, document libraries, and Teams channels.
- Embed PowerApps, Microsoft Stream, or any other Microsoft 365 content in your Diggspace articles.
- Quickly open your latest documents wherever they are — OneDrive, SharePoint, or Teams.
- Diggspace shares content — articles, knowledge, documents, and channels — into your tenant for discovery in Copilot and Microsoft 365.

Don't have Microsoft 365 for Everyone?

Your entire organization can benefit from **Diggspace**, even employees **without a Microsoft 365 account**.

Local or global, small or large, Diggspace defines your new digital workplace and lets you transition at your own pace.
