

The AI-driven digital heart of your company

Powered by Artificial Intelligence, Diggspace is the smart Intranet that connects colleagues, teams and ideas. It makes communication direct, accessible and effortless for every employee, even those without a corporate email, cutting through the noise and getting people engaged.

Centralized Communication

Keep all your company's news and updates in one single place.

Everyone Connected

Stay in the loop with team channels, communities, and instant alerts — everything you need, just a click away.

Boosted Productivity

Quick access to email notifications, calendars, documents, and other essential apps to streamline your daily work.

AI-Powered Assistant

Leverage the power of AI with a smart personal assistant that simulates human-like conversations via text.

Empower your team with the ultimate Digital Experience

Level-up Engagement

Create a more efficient work environment with personalized experiences — anytime, anywhere, on any device.

Boost Internal Communication

A modern and intuitive solution that enables smooth and effective communication across all levels of the organization.

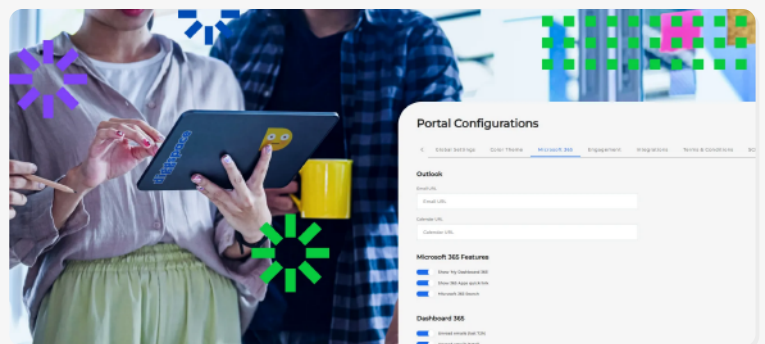

Ready to Use

Easy to configure, seamlessly integrates with your existing systems, receives constant improvements, and brings innovation without unexpected costs.

Out of the box integrations

Integrate Diggspace with your favorite tools

Effortlessly connect Diggspace with Microsoft 365, Teams, SharePoint, and more. Simplify workflows, enhance collaboration, and boost productivity with seamless integrations designed for modern workplaces.

**Collaborate smarter,
not harder.**

Diggspace is powered by **Create IT**
