Single source for all content

Who needs Crescendo?

Teams that need up-to-date access to content at all times and want a custom look and feel to their mobile presentation tool.

Crescendo's powerful features benefits marketing, field sales and many other teams that rely on consistent content.

What does it do?

Crescendo becomes a beautiful custom branded presentation of your content - online and offline.

It automatically syncs with the document cloud storage that you already use. When you add a presentation, edit documents or create extra folders, your entire team is updated immediately and always on the same page.

What do I need to use Crescendo?

You need an account in either of these document storage solutions:

- Displays documents, presentations, videos, and all common file formats
- Offline access to your content
- Works on iPads, iPhones, laptops & tablets
- A robust analytics portal
- CRM integration
- Ultra-fast full text search
- Alerts your team on content changes
- Full whitelabel customization

  and much much more...

IT JUST WORKS!

No 3rd party integration required.
