Products We Support

Born in the Cloud, Acumatica delivers a modern, full-function Enterprise Resource Planning (ERP) solution featuring a wide range of integrated business functions, including financials, CRM, manufacturing, distribution, project management, construction, retail-commerce, and field services.

Automate and streamline your business processes with Dynamics 365 Business Central a highly adaptable ERP solution that helps you manage your business with rich features including finance, manufacturing, sales, shipping, project management, services, and more.

Formerly Great Plains, Microsoft Dynamics GP is a mid-market business accounting solution that uses Microsoft SQL Server to store data. The starter pack includes core financials and distribution features enabling customers to get control and insight over their finances, pay and manage employees, and buy and sell goods and services.

Formerly Solomon, Microsoft Dynamics SL is for project-driven small and medium-sized businesses that includes applications for financial management, project management and accounting, distribution, field service, payroll, e-business, and more.

Crestwood has developed several add-on packages that extend the functionality of Acumatica.

Elevate your financial management with ConCurrent, Crestwood Associates' innovative tool, bridging Concur with Acumatica Cloud ERP. This seamless integration streamlines your financial processes, enhancing Acumatica financials and expenditure oversight.

See all collections data at once and fully automate your collection activities.

Upload the latest lockbox file and automatically create and apply payments.

View calculations and payout totals all in one place.

With the threat of malware and ransomware on the rise, one way to stay protected is with the Crestwood Cloud. As a Gold Certified Microsoft Cloud Solution Provider, Crestwood has your back, we offer a simple and low-cost backup service that can save your business.

Here are some of the great features and built-in services you get with the Crestwood Cloud:

- Admin access to your data
- Unrivaled security & state of the art firewalls
- Single tenants – no sharing of hardware resources
- Dependable backups
- Trustworthy connectivity
- Unlimited space allocation
- Administration services
- Monitoring 24 x 7
- Access anywhere, anytime, from any device
- Apps work across multiple monitors
- RemoteApp: Easy 1-click access to Apps

SERVICES

Discover and Advise

We advise key stakeholders on which technology solutions will have the greatest impact on their business goals by reviewing their system and processes. We then quantify the goals and map out a plan for action to achieve them.

Improve and Sustain

We don't disappear once your system is up and running. Whether you have a newly deployed solution, or your business is growing and you need more features, or you've added staff, we've got you covered.

Build and Deploy

With business goals identified, and system specifications documented, we build and deploy your solution ensuring a successful project and maximum user adoption.

Services and Resources
