Architect as a Service

Flexible advisory resources that fit your budget.

Your business' needs fluctuate, but you don't have the budget or personnel in place to meet those requirements. How do you fill the gaps? Covenant's AaaS elevates your team with the expert knowledge, resources, and structure you need to meet your BI goals while saving your IT budget. An expert architect will provide tactical and strategic assistance in an advisory role.

Project Kick-Off

Review Assessment

Assessment Phase

- Complete Questionnaire
- Develop Model Maturity Assessment
- Develop High Level Road Map
- Strategy Session
- Working Session
- Strategy Sessions
- Working Sessions

- **ASSESSMENT:** Covenant's Architect works with you to develop a logical architecture diagram, maturity model assessment and high-level roadmap.

- **WEEKLY OFFICE HOURS:** During an agreed upon time, an architect is available to answer questions, review code, or provide further coaching to your team.

- **BI-MONTHLY STRATEGIC PLANNING:** Discuss with your Architect in strategy-focused sessions and management of the team.

- **RETAINER:** Pay-as-you-go option to leverage your Architect's time on specific tasks.

Monthly consulting services with Covenant Technology Partners provides your IT team with dedicated, pre-scheduled working sessions, strategy sessions, and the breadth of experience across Microsoft's technology. We can provide architecture guidance, review designs, staffing assessments, Lunch & Learn sessions, budget requests, and technology guidance.
