AUTHENTICATION CONTEXT UPDATES TO MFA & CONDITIONAL ACCESS READINESS ASSESSMENT

MFA & CONDITIONAL ACCESS

Prepare your organization for Microsoft's September 30th enforcement deadline with a comprehensive assessment of your Multi-Factor Authentication (MFA) and Conditional Access (CA) policies. Delivered by certified Azure security architects, this engagement ensures alignment with Microsoft Security Defaults, Authentication Context requirements, and the Secure Future Initiative.

We help you identify gaps, legacy authentication risks, and misconfigurations in your Microsoft Entra ID (formerly Azure AD) environment, and provide a clear, actionable roadmap to strengthen your identity security posture.

VALUE PROPOSITION

- Accelerate compliance with Microsoft's Authentication Context enforcement requirements
- Reduce risk of service disruption and security breaches
- Gain clarity on MFA and Conditional Access policy effectiveness
- Receive expert guidance from Microsoft-aligned security professionals
- Improve security posture with a phased, low-disruption rollout strategy

DELIVERABLES

- Executive Summary (business risk overview)
- Technical Audit Report (detailed findings and policy analysis)
- Prioritized Remediation Plan
- Optional hands-on workshop with IT/Security teams

CUSTOMER PREREQUISITES

- Active Microsoft Entra ID (Azure AD) tenant
- Global Administrator access
- Access to Conditional Access policies and security logs (Log Analytics workspace preferred)

ENGAGEMENT OPTIONS:

Quick Scan (1–2 days) or Comprehensive Audit (5 days)

Book your assessment today to avoid disruptions and strengthen your Microsoft cloud security posture.

$ PRICING TIERS

Tier 1: Quick Scan
