

Supplier Performance Survey Solution

This Supplier Performance Survey solution streamlines the performance survey process, providing valuable insights, and ultimately enhancing the decision-making process for your organization. It's a modern, efficient, and data-driven solution that aligns with any goals for continuous improvement and strategic vendor management.

- **Comprehensive Solution:** The product offers a complete package that includes a new SharePoint structure, PowerApp, and Power Automate process tailored to your specific needs.
- **Customization and Flexibility:** The survey can be duplicated and modified, allowing for targeted feedback from select groups within your team.
- **Potential Integration with Power BI:** Integrate with Power BI for reporting purposes to provide actionable insights and identify trends, improvements, or struggles in supplier performance.
- **Enhanced Data Management:** The single dataset for all surveys allows for efficient data analysis.
- **User-Friendly Design:** The survey process is designed to be user-friendly & mobile responsive with a straightforward process for selecting suppliers, rating them, and providing feedback. The app is conveniently separated into 2 interfaces: the user interface for completing the survey(s) and the admin interface for survey management. User guides are provided for each.
- **Automated Processes:** Automated reminders and notifications are built into the system to ensure timely completion and follow-up on the surveys.
- **Actionable Outcomes:** The survey aims to drive KPIs and identify action items for continued improvement, contributing to the overall efficiency and effectiveness of your performance management process.

The Supplier Performance Survey solution allows for the measurement of a supplier or vendor's performance by capturing trends, improvements or struggles, helping to drive KPIs, and identifying action items for continued improvement. This may be facilitated using Power BI for reporting purposes, which can integrate the survey data to provide actionable insights.

Dedication. Innovation. Results.
