Prepare for your Microsoft 365 Multitenant Organization

Covenant TECHNOLOGY PARTNERS
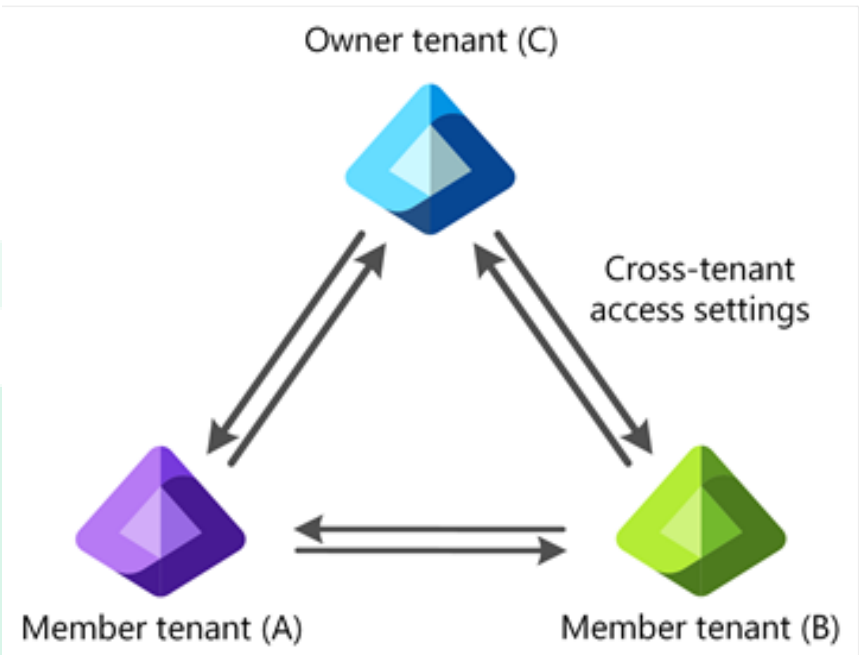

Estimated Price: $4,800

The multitenant scenario occurs when an organization has more than one Microsoft 365 tenant (Entra ID).

Reasons that an organization may have multiple tenants:

- Conglomerates
- Mergers, Acquisitions, Divestitures
- Regulatory requirements
- Development environments

Deliverables:

- Session 1 - Strategy
- Session 2 - Technology
- Session 3 - Recommendations

Owner tenant (C)

Cross-tenant access settings

Member tenant (A)   Member tenant (B)

Organizations that own multiple tenants may need to streamline intra-organization cross-tenant collaboration in Microsoft 365.

Multitenant organizations in Microsoft Entra ID offers many multitenant capabilities to allow users to securely interact across the multiple tenants and to automatically provision and manage those users.

Covenant Technology Partners has developed a program to assist organizations who have identified this need.

Assumptions:

- These modules are delivered as total of 4-8 hours of interactive sessions guided by presentation material and live interaction with the demonstration tenant.
- 3 formal sessions are planned
- Q&A is welcome.
- Presentation material is provided at the conclusion of the module
- While recommendations may be made, no changes to the client tenant are to be executed in the context of the module.

Dedication. Innovation. Results.
