DESCRIPTION

Microsoft's ever evolving Azure cloud platform provides more than 200 products and services to solve today's challenges and create the future. With Azure you can build, run and manage applications across multiple clouds, on-premises and at the edge, with the tools and frameworks of your choice.

cubesys is one of Australia's leading, Azure certified, partners offering a unique managed service for Azure. Remove risk and free staff to focus on your business needs, while cubesys Azure experts maintain and optimise your environment for you.

Our deep understanding of cloud-based operational models and unparalleled experience in cloud governance, DevOps and automation allows cubesys to continually deliver benefits. Whether you're running business critical applications, developing new solutions or want to keep environments aligned to best practices - we have the real-world experience to help and are leaders in Microsoft's Azure Cloud Adoption and Well Architected frameworks.

Remove risk and free staff to focus on your business needs, while cubesys Azure experts maintain and optimise your environment for you.

Having delivered Azure Services since its inception, our experienced experts will ensure operational excellence by:

- ✓ Maintaining platform health and updates
- ✓ Provide roadmaps to maintain and improve your environment
- ✓ Optimise costs through unique IP and automation
- ✓ Align to Cloud Adoption and Well Architected frameworks
- ✓ Maintain security
- ✓ Monitor, Alert and act base on your requirements
- ✓ Help you modernise and choose the right services in Azure
- ✓ finally, provide guidance on operational best practice and next steps.
