Efficient and Secure Azure Migrations

Azure Migration Assessment:

As a Microsoft Direct CSP Partner with twelve Gold competencies, three Silver competencies, and five Advanced Specializations, Red River has helped hundreds of organizations plan for, and execute, migrations from on-premises technologies to the cloud.

See what customers are saying:

"Our cloud migration resulted in increased office efficiency and a higher level of comfort with file sharing. Red River's responsiveness, availability, and commitment to their craft turned the original partnership into a relationship set to last into the future.

— CFO, American Farmland Trust

WHAT WE OFFER

Assessment Activities Include
* Use Azure Migrate and other appropriate third-party tools to collect environmental data
* Create Application Catalog
* Analyze results
* Develop recommended approaches
* Map dependencies
* Create network and solution overview drawings
* Create budgetary estimates for migration activities

Focus Areas of the Assessment Include
* Current environment snapshot
* Custom, high-level migration plan and solution design
* Estimated timeline and level of effort
* Estimated pricing and return on investment

Deliverables of this Engagement Include
* Azure Migration Assessment Report Document
* Executive Summary Presentation and Slide Deck
* Access to raw data collected by Red River as part of the engagement

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
