

## Modern Workplace Maturity Assessment

### Key Benefits

Bring business and IT leadership together to define strategic goals

Align technology strategy to business outcomes & create buy-in

Maximise ROI from existing investment in Microsoft technology

Create a clear roadmap for future Microsoft technology requirements

Speed up delivery of key digital transformation projects

### Over 70% of digital transformation projects fail

Lack of alignment between business outcomes and technology strategy is a common barrier to delivering successful digital transformation.

### What is the Modern Workplace Maturity Assessment?

Our consultants will guide you through our proprietary focused and rapid analysis to develop and implement a modern workplace strategy, accelerating your transition to a productive, modern workplace.

Bringing together business and IT leaders, we combine a strategic review of 10 key business areas with a technology review of your existing Microsoft on-premise or cloud infrastructure.

Our recommendations enable you to maximise the benefits from your existing Microsoft license entitlements and identify areas for future technology investment.

#### Holistic Approach

- Put technology & business leaders in the same room
- Ensure buy-in and contribution from all key stakeholders
- Align business strategy with technology strategy

Focus on momentum, delivering one goal after another

#### Modern Workplace

- Flexible, modern working is in our DNA
- Advice from mobile experts - Win10, Apple iOS, and Android
- Gold partners in Microsoft Enterprise Mobility Management

Users need to be able to work on any device, anywhere, at any time

#### Secure & Compliant

- Productivity shouldn't mean sacrificing security
- Security by design, not as an afterthought
- ISO 27001 certified across all products and services

Complex modern workplaces need a new approach to security

*The Maturity Assessment really opened our eyes to the transformative possibilities of modern working in our organisation. The strategic nature of the engagement has allowed us to have a much clearer understanding of what's possible in the short to medium term and will help us deliver real change effectively.*

James Fogarty, Cork County Council

## How the Modern Workplace Maturity Assessment Works : 3 Steps

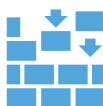

### Step 1 - Workshop

- Input from business and IT leadership
- Led by industry expert consultants
- All stakeholder requirements captured

### Step 2 - Discovery

- Microsoft entitlement audit
- Gap analysis of adoption of entitlements
- Assessment of existing Microsoft environment

### Step 3 - Output

- Documented strategic plan
- Deliverables mapped to existing entitlements
- Foundation for solution design

### Modern Workplace Maturity Assessment

#### Our promise to you

An inclusive approach, bringing the business and technology teams together to increase success and speed of delivery of your modern workplace initiative
