Modern Workplace Security Assessment

Security or compliance concerns shouldn't be a barrier to achieving modern workplace objectives.

Modern Workplace Security Assessment

Our Security Assessment combines a comprehensive review of security policies and regulatory requirements, with a security review of existing Office 365 and Enterprise Mobility + Security configuration.

Our recommendations show clients how to mitigate risks by optimising the security and compliance features that are built-in to their Microsoft solutions.

Benefits:

- ✓ Identify & prioritise security risks
- ✓ Align technology controls with security policies & regulatory requirements
- ✓ Leverage the security features of Microsoft's Modern Workplace solutions
- ✓ Accelerate the journey to a modern workplace
