Trusted Info at Finger Tips

## Transform your Agency into a Real-Time Crime Center

GeoShield is a Force Multiplier that will help transform your agency into a Real-Time Crime Center. Connect multiple information sources such as Agency Data, Law Enforcement Data, and Live Video Streams in real-time to acquire a holistic view of all events & incidents happening across your city. Accurately anticipate public safety issues, streamline workflows and proactively respond to incidents with coordinated response.

Re-designed real-time dashboard with live notifications & alerts

Real-time detection of threshold breaches with active alerts

Real-time camera streaming for live city monitoring

Unity Connector for delivering real-time data

Advanced map operations and functionalities

Interactive data analytics & visualization with drill down capabilities

Quick Access to Relevant Information

Proactive Planning & Decision Making

Empower Responders with Operational Insights
