Agent 365 Deployment

Govern, protect, and monitor appropriate AI agent use across your org.

Your agents can be a massive security risk if not properly governed. Microsoft's Agent 365 capabilities help you protect your agents from misuse, detect insecure configurations, and govern agents holistically. Microsoft 365 E7 customers are eligible for this offer to secure their agentic workflows.

AGENT 365 DEPLOYMENT BENEFITS

Enable secure agentic AI for the business: Agent 365 provides the fastest way to enable your business to use agentic AI with strong security. You'll have peace of mind in knowing your security strategy for agents is sound.

Secure agents: Quickly detect broad permissions, risky activity, and threat protection vectors and apply broad security policy to protect your estate.

Monitor agents: Gain operational visibility into agent actions and protect real-time prompts and responses with data security policy and appropriate use policy.

Govern agents: Find new agents that lack owners, overlap in purpose, and consolidate/remove agents that are not needed.

HOW WE HELP

Fastest time to value

We focus on providing you a rapid enablement of agentic security so your business can move forward with agent rollouts unblocked, layered with strong security principles.

Extensibility

We secure more than just Copilot; your custom developed and third-party agents are included - plus, we provide Agent 365 Observability SDK integration help.

Operational training

We train your teams on the total set of capabilities so they can scale their efforts broadly and focus on the most pressing security issues with agents.

Enhance your E7 Investment

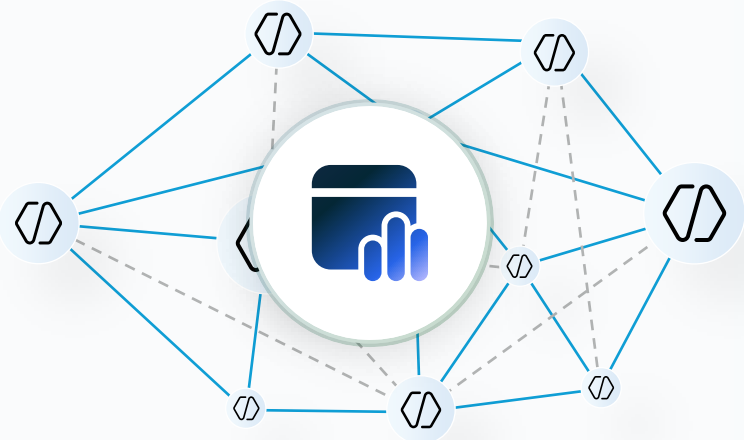

Cyclotron can leverage Microsoft funding and other mechanisms to reduce the deployment cost of Agent 365 to your organization.

Microsoft Agent 365

Observe, Govern and Secure all agents at scale

Observe

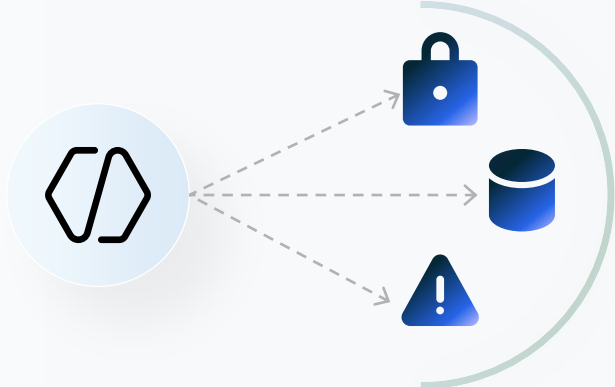

Monitor and manage agents in real time

Govern

Govern agents throughout their lifecycle

Secure

Protect all agents comprehensively

Microsoft Agent 365

Register, track and measure all agents in one place

Full visibility into every agent, track adoption, usage and effectiveness with analytics and role-based reporting for IT, Security and Business leaders.

Govern agents throughout their lifecycle

IT-controlled onboarding, lifecycle policies, least-privilege access and audit trails ,every agent governed and compliant from day one.

Protect all agents comprehensively

Zero Trust extended to every agent, protect identities, prevent data leaks, and defend against AI threats including prompt injection and tool misuse. No new security tools required, Agent 365 extends your existing Microsoft security investments to agents.

Observe

Register, track and measure all agents in one place

Full visibility into every agent — track adoption, usage and effectiveness with analytics and role-based reporting for IT, Security and Business leaders.

Protect all agents comprehensively

Zero Trust extended to every agent, protect identities, prevent data leaks, and defend against AI threats including prompt injection and tool misuse.

CYCLOTRON'S SERVICES FOR AGENT 365

WHAT DOES CYCLOTRON DO WITH AGENT 365?

- **Tool setup & deployment** with total onboarding of all agents, whether M365, third-party, or custom-developed.
- **Integrates setup** with Defender, Purview, and Entra for total security, compliance and identity monitoring
- **Trains your developers** on Agent 365 SDK integration and best-practices integration with Agent 365
- **Trains your admins** to own the governance strategy with runbooks, operational training, and tailored guidance
- **Trains your end-users** to leverage Agent 365 publishing requests and end-user-facing features
- **Manages Agent 365 for you** using our KAPTON service.

WHY CYCLOTRON?

- **Frontier Program partner**, with the earliest access to both Agent 365 and to Copilot features. Cyclotron has been doing both Agent 365 and Copilot deployments from the inception of the tools.
- One of the **largest partners** in Copilot and Purview impact across the globe
- **History of success** with managing compliance and governance for clients
- **Hundreds of enterprise-scale deployments** of Purview and Copilot individually, and most often paired together for agentic security value
- **We leverage Microsoft funding** from multiple programs when available.

Reach out to steve.ellson@cyclotron.com to get started with Cyclotron's Agent 365 program.
