

Celebrate your teammates' birthdays and anniversaries with Celebrations, a Microsoft Teams App!

About Dalikoo

Dalikoo is a software company that makes intuitive applications for Microsoft 365. We solve business problems with practical solutions. Our software runs on Microsoft SharePoint and Microsoft Teams and is available to purchase on the Microsoft Marketplace.

What we offer

Celebrations is a fun Microsoft Teams app that helps you to stay connected with your teammates on their special days (birthdays or work anniversaries), so that you will never miss a chance to show your support and appreciation.

Once the Teams admin installs the app, each user can add it to their app bar section and start using the application.

When someone's birthday or anniversary arrives, Celebrations will create a notification for all coworkers in the Teams Activity area and let them choose from a variety of cool whimsical greeting cards to send to their teammate. Everyone can also customize their own message and add emojis or stickers to make the greeting extra special.

Make every day feel like a celebration with our Microsoft Teams app, Celebrations.

What our customers are saying

"I absolutely love this app! It is so easy to use and is a fun way to interact with my friends on their special occasions. The funny greeting and emojis are cool and fun to use. I would definitely recommend this app!"

– Michael Rudnick, CEO, Velaku
