**Microsoft Surface  
ARM Device Readiness Assessment**

# ARM Device Readiness Assessment

Our offering helps your organisation:

1. Get ready to gain advantages from Copilot+ PCs (better performance, longer battery life, and comprehensive security features).
2. Ensure your environment is ready to support these changes.
3. Confirm application and peripheral compatibility
4. Assess modern management and deployment strategies

The Microsoft Surface logo is displayed on a blue rectangular background. It features the Microsoft logo, which consists of four colored squares (red, green, blue, and yellow) arranged in a 2x2 grid, followed by the word "Microsoft" in a white sans-serif font. Below "Microsoft" is the word "Surface" in a larger, white sans-serif font.

Microsoft  
Surface

# Solution Overview

1. Environment Readiness Workshop
2. Application and Peripheral Compatibility Workshop
3. Development of Findings and Recommendations Report

# Environment Readiness Workshop

- Operating System support
- Modern management and deployment
- Surface management tools
- M365 workloads and applications
- Security policies and data governance

# Application and Peripheral Compatibility Workshop

- Use case and personas for ARM devices
- Application discovery and supportability requirements
- Peripheral discovery and compatibility requirements

# Findings and Recommendations Report

- Environmental readiness findings and recommendations
- Application compatibility
- Peripheral compatibility
