Microsoft 365 Copilot Readiness Assessment

Microsoft 365 Copilot is designed to help with repetitive and time-consuming tasks

Draft a complete document or report in word

Analyse data and trends to generate data visualisations

Build presentations from a simple prompt

Review long mail threads and draft replies

Summarise discussion points and create action items

Instantly turn your data into content using simple prompts

Automatically draft and create meaningful content

Copilot combines the power of large language models (LLMs) with your data in the Microsoft Graph and the Microsoft 365 apps to turn your words into the most powerful productivity tool on the planet.

"With our new copilot for work, we're giving people more agency and making technology more accessible through the most universal interface - natural language."
- Satya Nadella, Chairman and CEO, Microsoft.

M365 Copilot gives access to your business content and context across your M365 tenant

Is your data available and managed?

User experience

- Are you using modern SharePoint?
- Are you using OneDrive?
- Is all your data available in M365?

Content Management & Security

- Are you adhering to ‘just enough access’?
- Is content being overshared?
- Are you reviewing and managing permissions?

Our approach - Copilot Readiness Assessment

Information Governance and Data Management

Organisational Change Management

Licensing and Platform

Your M365 Copilot timeline
