Modernise Endpoints

Modernise Endpoints with Data#3

Our Modernise Endpoints solution helps you leverage the latest endpoint solutions from Microsoft to enable your staff to work securely with the performance they need to get their job done.

We provide recommendations on how to deploy one or more of Windows 11, Windows 365, Azure Virtual Desktop and Microsoft Endpoint Manager in your organisation.

Solutions that Compliment

Windows 11

Microsoft's latest Windows operating system

Newly designed, clean interface

Android Apps on Windows 11

Keep up to date to ensure supportability and security

Windows 365

Cloud-based PC streamed to your device

Stream apps, data, content, and settings from the cloud to any device

Scalable and standardised operating environment

Integrates with Microsoft Endpoint Manager and Azure Active Directory

Minimise management overhead

Azure Virtual Desktop

Cloud-based PC streamed to your device

Stream apps, data, content, and settings from the cloud to any device

Scalable, customisable operating environment

Integrates with Microsoft Endpoint Manager and Azure Active Directory

Maximum customisation and flexibility

Microsoft Endpoint Manager

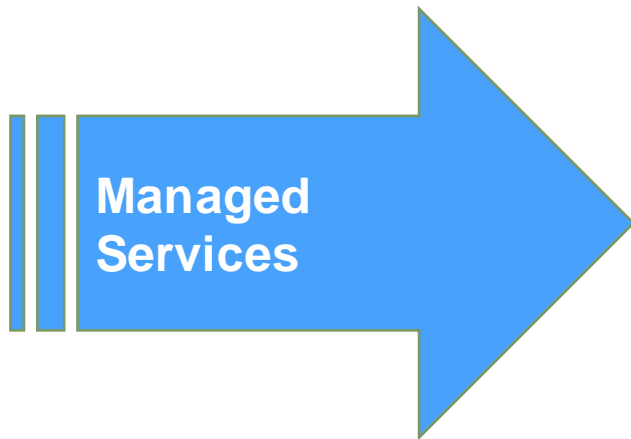

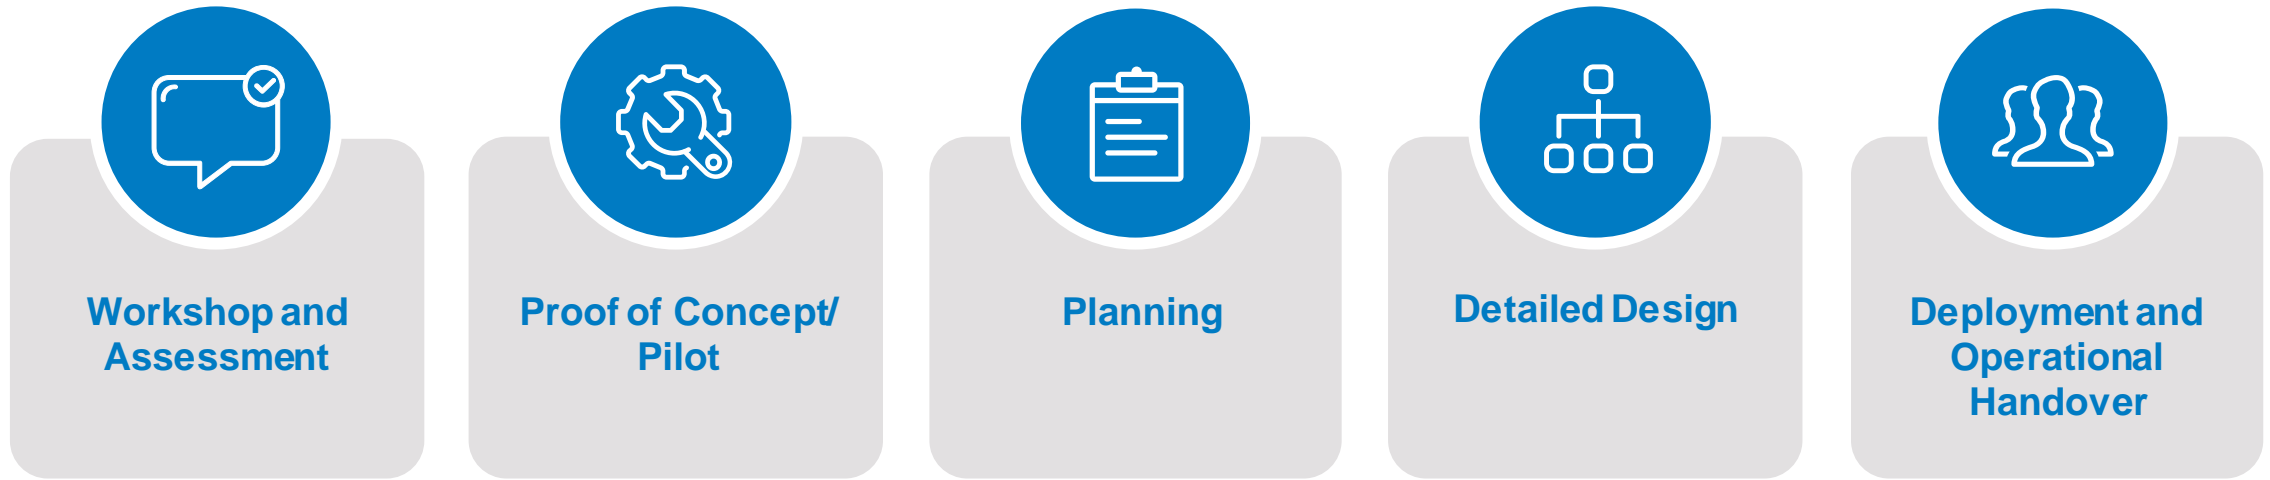

Manage all devices from the cloud

Integrates with Azure AD

Deploy Apps and apply policies to your mobile devices and workstations

Secure your devices by enforcing configuration policies remotely

Taking you through every step of the journey

A managed service available 24/7
Device as a Service option to move to an opex model

Outcomes for you

- ✓ Provide your staff with an optimal working environment, whether they are in the office or working from home
- ✓ Recommendations, POC/Pilot, and rollout
- ✓ Deploy one or more of Windows 11, Windows 365, Azure Virtual Desktop, Microsoft Managed Desktop and Microsoft Endpoint Manager
- ✓ Leverage funding across the solutions and project phases to minimise costs
- ✓ Deploy new or updated apps to devices, no matter where they are
- ✓ Change configuration and security policies on devices, no matter where they are
- ✓ Report on update compliance of your fleet
- ✓ Standardised environment deployed for new devices, automatically
- ✓ Ability to remotely reprovision laptops, extending the life of your hardware
- ✓ Implement the same standard across all devices

Scope of the Modernise Endpoints Service

Envisage and Assess

- ✓ Windows 11 Assessment
- ✓ Cloud Accelerate Workshops (one or both)
 - ✓ Workshop 1 – Endpoint Management
 - ✓ Workshop 2 – Next Generation Endpoints

Proof of Concept/Pilot

- ✓ Deploy a PoC or Pilot in your environment (such as Windows 11, Windows 365, Azure Virtual Desktop, Microsoft Endpoint Manager, Microsoft Managed Desktop)
- ✓ Hands-on experience using the technology

Design the desired end state for Endpoints

- ✓ Solution Plan, Design and Deployment of the Modernise Endpoints solution
- ✓ Adoption and Change Management to embed new technology and ensure productivity gains are achieved

Optional: Managed Service or Desktop as a Service offering

Duration of engagement

**Small to
medium
organisations**

- ✓ A short-sharp deployment of some or all of the Modernise Endpoints solution, this can be completed within a month.

**Larger
organisations**

- ✓ A phased rollout over the course of several months to ensure the change is effectively adopted by your staff and to consider scenarios such as multiple/complex use-cases, tool migration, implications on in-house applications, authentication and identity.
