

Modern Analytics Solutions

Using **Power BI**, **Data Bear** transforms raw data into rich **interactive visualizations**. We build stunning interactive Power BI **dashboards** and **reports** that are accessible from anywhere and quick to understand. No matter where your data is stored, we will **work with you** to get the results you need.

Why Power BI?

Just as businesses strive to find an edge against industry foes, **Microsoft** is determined to deliver **modern BI** and **analytics** solutions for all types of users and to remain a **leader** and **visionary** in a competitive BI platform environment. Microsoft and Power BI stand out — and the benefits pay off for users.

Power BI Solution Specialists
