

**IMPLEMENTATION**

# Datacom's rapid implementation of Wiise ERP

Modernise and streamline your financial and business management with Datacom's implementation of cloud-based Wiise ERP, tailored for New Zealand and Australia. Wiise ERP, built on Microsoft Business Central, enables a rapid 14-week implementation, reduces custom code, and integrates seamlessly with the Microsoft ecosystem.

Wiise is designed to meet the unique needs of New Zealand and Australian businesses. It combines the power of Microsoft's cloud-based ERP platform, built-in Copilot and essential local functionalities such as GST compliance, direct bank feeds, integrated payroll, and industry-ready reporting. Wiise delivers robust and scalable out-of-the-box solution aligned with local compliance and operational requirements, enabling businesses to meet regulatory obligations while streamlining their operations.

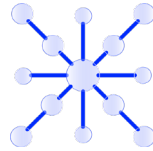

Whether an organisation is transitioning from legacy systems, consolidating platforms, or embracing digital transformation, Wiise offers a structured, transparent, and collaborative approach to ensure a smooth and efficient implementation. The clearly defined 14-week implementation with fixed scope enables businesses to move confidently from discovery to go-live, minimising complexity and supporting businesses in adopting modern, agile practices while maintaining control over the transformation process. This approach not only maximises efficiency but also helps organizations achieve long-term success.

# Key benefits

## Localisation

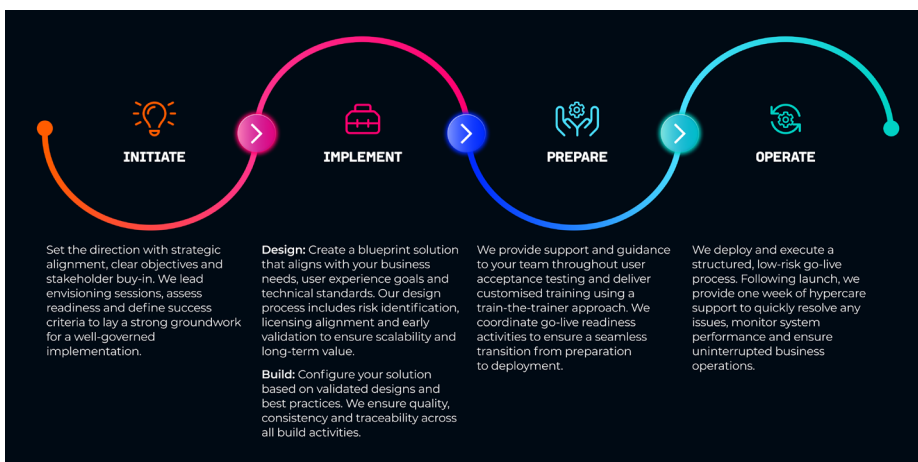

Wiise offers enhancements tailored to meet the needs of New Zealand and Australian organisations, including integrated bank feeds, direct debit and electronic funds transfer functionality for major Australia and New Zealand banks, a KPMG chart of accounts, IRD-compliant invoices and prebuilt financial reports.

## All-in-one business platform

Wiise integrates accounting, inventory, payroll and project management in one system, reducing reliance on spreadsheets. Wiise helps businesses make smart, timely decisions with dashboards and reporting, integrating with Copilot, Microsoft Office suite, Teams, Azure and more.

# Transform your operations with Datacom's Wiise rapid implementation

Datacom offers a proven 14-week rapid implementation approach that combines agility with best practices, enabling you to transition to Wiise smoothly from legacy systems or multiple platforms with minimal disruption. Wiise's intuitive, customisable interface integrates seamlessly with Microsoft 365 apps, enhancing productivity and user adoption. With AI-powered features like Copilot-enhanced bank reconciliation and continuous updates beyond Microsoft's standard releases, Wiise helps future-proof your business.

## Experience the Datacom difference

At Datacom, we help leaders across a broad range of industries including finance services, government, healthcare, education, retail, and manufacturing to tap into the power of Microsoft Dynamics 365 and its Power Platform. By doing so, our customers have been able to accelerate time to value, speed up innovation, and drive benefits for their customers, employees, and organisations.

Our technical and information management experts are some of the best in the world and have a wealth of knowledge and experience that allows us to quickly identify areas of risk and opportunity. Datacom's deep knowledge of Microsoft technologies and our solid partnership means we're committed to being your trusted partner, navigating you towards achieving success and maximising your investment in Microsoft Dynamics 365.
