

CONSULTING SERVICE

Microsoft Purview by Datacom

Govern, protect, and manage data across all hosting environments with Microsoft Purview. Datacom offers a dedicated consultancy service to procure and best manage Microsoft Purview. Designed to efficiently manage and unify data across your environment on premise, multi cloud, and software as a service (SaaS).

Safeguard your data and drive innovation with Microsoft Purview.

Safeguard data wherever it lives throughout its lifecycle, across apps, clouds, and devices.

We review your Microsoft 365 products including Teams, SharePoint, Power Platforms, and Azure Fabric, and provide a Microsoft Purview data map. Designed to simplify, Purview registers and scans data sources to map your data and identify sensitive information.

Gain an up-to-date map of your entire data estate that includes data classification and end-to-end lineage.

- Identify where sensitive data is stored.
- Create a secure environment for data consumers to find valuable data.
- Generate insights about how customer data is stored and used.
- Manage access to data securely and at scale.

Key benefits

Expert guidance

Our consultants provide specialised knowledge tailored to your business needs, ensuring effective implementation of Purview.

Improved data collaboration

Purview enhances data access across teams, fostering better communication and decision making.

Real-time insights and monitoring

Continuous visibility into your data, helping monitor and respond to data governance and compliance issues promptly.

Ongoing support and training

Gain support and training, helping your team stay updated with latest features and best practices.

Are you managing your valued data effectively?

Data security

Centralised data catalogue that enables users to discover, understand, and better manage data.

Data governance

Detect, investigate, and act. Access analytics and reporting tools providing insights into data usage, lineage, and overall quality.

Risk & compliance

Seamlessly safeguard data wherever it lives throughout its lifecycle across apps, clouds, and devices.

Microsoft Purview offers a comprehensive data governance and compliance solution that enables organisations to discover, manage and protect data across environments.

Datacom works with organisations and communities across Australia and New Zealand to make a difference in people's lives and help organisations use the power of tech to innovate and grow. Our vision is to enable our customers and communities to thrive and shape their own futures.

Built on strong values, Datacom has grown to be one of Australasia's leading locally-owned technology businesses, with more than 6,500 people and \$1.49 billion in revenue.

We have a track record of success in working with government agencies and companies at SME and enterprise level, and our teams are always solving for greater security, higher productivity, a more sustainable future, and to build better digital experiences for our customers.
