

ASSESSMENT

Microsoft Dynamics 365 ERP Assessment by Datacom

Assess both D365 Business Central and D365 Finance and Supply Chain Management against your business needs and gain comprehensive insights to inform your ERP replacement journey.

Whether you've outgrown your current finance system or looking to upgrade your legacy ERP platform, we know it can be time consuming and costly to cut through the sales and marketing to identify a platform that will meet your business needs.

Datacom's comprehensive D365 ERP assessment will help your organisation gain in-depth data and insights to help inform your decision. In under 6 weeks we can provide a comprehensive business case report, outlining everything from your functional requirements, implementation estimates, project timeframes, license estimates and integration considerations.

In consultation with our experienced financial consultants, we will provide a detailed platform fit-gap analysis on your "must have", "should have" and "could have" requirements against both D365 Business Central and D365 Finance and Supply Chain Management.

Datacom's assessment provides you with the insights you need to implement your next ERP solution to meet your current requirements, with a view on ensuring the right platform for long term growth and scalability.

You will receive comprehensive data driven recommendations for the most suitable platform, with costs and timeframes to help inform your business case and project budgets.

Key benefits

Data driven fit vs gap platform recommendation

We assess your needs against both D365 solutions and score each functional areas fit-to-gap percentage for a precise match.

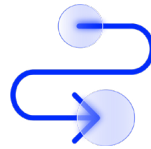

Detailed project estimates

Gain detailed project implementation estimates for both D365 Business Central and D365 Finance and Supply Chain – including ongoing licensing costs.

Detailed requirements to inform your RFP

Capture your 'must, should and could have' ERP business requirements in detail to help inform the scope of your RFP.

End-to-end business case report

Present a comprehensive business case to inform your ERP replacement, with clear recommendations, costs and data.

Gain insights to inform your ERP replacement journey

In under six weeks gain all the information you need to determine which D365 platform is the best fit for your business.

1

ONBOARDING SESSION:

Getting to know your business with our finance and D365 experts to understand your key business drivers, pain points, user journeys and future state outcomes.
