

MANAGED SERVICE

Managed endpoint detection and response by Datacom

Protect sensitive data and maintain operational integrity with Datacom's fully managed endpoint detection and response (EDR) service.

The rise of cyber attacks and the shift to remote work underscore the critical need for robust device and infrastructure security. As organisations increasingly rely on technology, safeguarding devices and your organisations end points is essential to protect sensitive data and maintain operational integrity.

Datacom's fully managed endpoint detection and response (EDR) service integrates Microsoft's Defender technology with the expertise of our 24/7 Cybersecurity Defence Operations Centre (CDOC), to ensure comprehensive protection for your organisation's endpoints. This service allows you to focus on what you do best, while we manage and mitigate cyber threats effectively.

Investing in device and end point security is not just a technical necessity; it is a strategic imperative for any organisation aiming to thrive in a complex cyber landscape. With the right tools and expertise, you can enhance your security posture, reduce risk, and foster a culture of resilience against evolving threats.

Key benefits

Enhanced security

Leverages next-gen antivirus and AI to detect and block advanced threats, including zero-day malware and fileless attacks.

Focus on core business

Eliminates the need for in-house cybersecurity skills, allowing businesses to concentrate on their primary operations.

Continuous monitoring

24x7 monitoring and response by Datacom's Cyber Defence Operations Centre.

Rapid incident response

Swift action from integrated cybersecurity incident response team.

Safeguard against evolving threats

Datacom's fully managed EDR service, powered by Microsoft Defender, ensures your organisation remains secure against sophisticated cyber threats. With continuous monitoring and rapid incident response, you can focus on your business while we protect your endpoints.

Datacom works with organisations and communities across Australia and New Zealand to make a difference in people's lives and help organisations use the power of tech to innovate and grow. Our vision is to enable our customers and communities to thrive and shape their own futures.

Built on strong values, Datacom has grown to be one of Australasia's leading locally-owned technology businesses, with more than 6,500 people and \$1.49 billion in revenue.

We have a track record of success in working with government agencies and companies at SME and enterprise level, and our teams are always solving for greater security, higher productivity, a more sustainable future, and to build better digital experiences for our customers.
