

WORKSHOP

A photograph of three professionals (two men and one woman) in a server room, looking at a tablet held by one of the men. They are all wearing blue lanyards. The background shows server racks with blue lighting.

Datacom Next-gen Endpoint discovery workshop

This workshop helps you understand how Next-gen Endpoint can provide value to your organisation and what steps and investments may be required.

Our two-part workshop is designed to help organisations understand the fundamentals of Next-gen endpoint and how it can be leveraged most effectively to meet their needs.

Workshop 1: Understanding business requirements - 1 hour

- Overview of the workshop and approach
- Understanding requirements and business strategy
- Overview of the Next-gen Endpoint value proposition (Windows 365, Microsoft 365 for frontline workers, Intune, AVD)
- A short demonstration of Next-gen Endpoint end-user experience

Workshop 2: High-level solution - 1 hour

- High-level proposition of the solution and TCO estimate
- Overview of the adoption process and approach to design, build, deployment and management
- Discussion and next steps

Key benefits

Gain a deeper understanding of your requirements and business strategy in the End-User Computing (EUC) space.

Understand the value proposition of Next-gen Endpoint technology.

Understand the high-level proposition of the solution and obtain an estimate of its Total Cost of Ownership (TCO).

Obtain a clear understanding of the adoption process and approach to designing, building, deploying and managing the Next-Gen Endpoint solution.

Choose the right solution for your modern workspace transformation

Many organisations want to migrate their services to the cloud but often have a significant on-premise presence to support their End User Compute environment (VDI, RDS and legacy device management).

By conducting Datacom's Next-gen Endpoint discovery workshop, your business can discover pathways for transforming your on-premise footprint and provide your users with a flexible, scalable and cost-effective Next-gen Endpoint and application delivery solution that is also secure.

Datacom works with organisations and communities across Australia and New Zealand to make a difference in people's lives and help organisations use the power of tech to innovate and grow. Our vision is to enable our customers and communities to thrive and shape their own futures.

Built on strong values, Datacom has grown to be one of Australasia's leading locally-owned technology businesses, with more than 6,500 people and \$1.49 billion in revenue.

We have a track record of success in working with government agencies and companies at SME and enterprise level, and our teams are always solving for greater security, higher productivity, a more sustainable future, and to build better digital experiences for our customers.
