

ASSESSMENT

Datacom's rapid Azure migration assessment

Kickstart your Azure journey with Datacom's rapid Azure migration assessment. Gain actionable insights, reduce risks, optimise costs and unlock seamless scalability with a clear, tailored roadmap powered by Microsoft expertise.

Datacom's rapid Azure migration assessment, powered by Microsoft, is designed to help organisations confidently transition to Azure with clarity and efficiency. Cloud migration can be complex, but with Datacom's Microsoft-certified experts and proven methodologies, we provide a tailored roadmap that aligns technical execution with your business objectives.

Using advanced Microsoft and Altra tools such as Azure Migrate and Dr. Migrate, we deliver a detailed view of your current infrastructure, uncovering legacy challenges, security gaps and optimisation opportunities.

Our comprehensive approach includes a full total cost of ownership (TCO) analysis, phased wave planning and our 6 R migration strategy – rehost, refactor, rearchitect, rebuild, replace or retire – ensuring each workload is migrated with purpose and precision.

With benefits like faster cloud return on investment, reduced risks, optimised costs and scalable environments, Datacom's rapid Azure migration assessment transforms your migration into a strategic business enabler. From modernising applications to improving security posture, we provide the insights, tools and expertise to unlock Azure's full potential while delivering measurable business outcomes.

Key benefits

Faster cloud return on investment

Quickly pinpoint workloads and systems ready for migration and reveal operational efficiencies. With actionable recommendations, you can start realising Azure's benefits sooner.

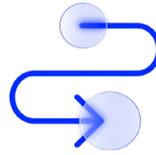

Reduced migration risks

Through detailed dependency and impact mapping, we minimise downtime and disruption. This ensures a smooth migration process that maintains business continuity and safeguards critical operations.

Cost optimisation

A comprehensive TCO analysis provides full visibility of migration and operational costs. This empowers you to plan effectively, control spending and maximise the value of your cloud investment.

Seamless scalability

By optimising workloads for Azure's cloud-native environment, we prepare your infrastructure for future growth. Easily scale to meet evolving business demands without compromising performance.

Your fast track to Azure cloud success

Datacom's rapid Azure migration assessment, powered by Microsoft, accelerates your move to Azure with a clear, customised roadmap. We deliver actionable insights to optimise infrastructure, reduce risks and control costs through detailed TCO analysis. Leveraging Microsoft's advanced tools and our 6 R strategy, we prepare workloads for cloud-native scalability, ensuring your migration achieves lasting business value.

Experience the Datacom difference

At Datacom, we help leaders across a broad range of industries including finance services, government, healthcare, education, retail, and manufacturing to tap into the power of Microsoft Dynamics 365 and its Power Platform. By doing so, our customers have been able to accelerate time to value, speed up innovation, and drive benefits for their customers, employees, and organisations.

Our technical and information management experts are some of the best in the world and have a wealth of knowledge and experience that allows us to quickly identify areas of risk and opportunity. Datacom's deep knowledge of Microsoft technologies and our solid partnership means we're committed to being your trusted partner, navigating you towards achieving success and maximising your investment in Microsoft Dynamics 365.
