PILOT

# Datacom's Windows 365 Standard 3-WK Pilot

Use the power of Windows 365 to transform remote work, drive productivity and unlock seamless collaboration while ensuring security and compliance.

We are facing new challenges when it comes to effectively enabling how people interact with each other to deliver and realise value. Organisations are needing to deliver better business agility and responsiveness, and more people are approaching work with the expectation of operating remotely.

Set a solid foundation to start evaluating the benefits of Windows 365 and accelerate the Windows 365 adoption with Datacom's Windows 365 Standard Pilot.

## Plan
- Windows 365 Pilot requirements assessment
- Windows 365 Pilot discovery workshop
- Windows 365 Deployment overview presentation
- Windows 365 Pilot solution design decisions and remediations checklist.

## Enable
- Set up Intune policy for Windows 365
- Set up a fully functional Windows 365 environment with Azure AD join authentication
- Three standard apps, including Office 365, Teams and OneDrive, deployed to Windows 365 via Intune
- Ten-hour support package for up to 2 weeks of UAT testing.

## Grow
- A Windows 365 operations overview workshop
- A presentation of the findings and next steps workshop.

Hybrid identity set-up

Windows autopilot establish

Plus value add-on services

Cloud print integration

Certificate management

Providing you with a solid foundation to start evaluating the benefits of W365 and accelerate further adoption

VPN integration

Remote assistance

Windows 365 provides a secure and convenient way for organisations to deliver a virtualised Windows desktop experience to their employees, regardless of location. By leveraging Datacom's Windows 365 service, you can quickly deploy and manage your Windows 365 environment with minimal effort.

Windows 365 can deliver new ways of working remotely, enable frontline staff and embrace BYOD culture without compromising on experience or operational security, and set up the basis for a Windows Evergreen environment.

Datacom works with organisations and communities across Australia and New Zealand to make a difference in people's lives and help organisations use the power of tech to innovate and grow. Our vision is to enable our customers and communities to thrive and shape their own futures.

Built on strong values, Datacom has grown to be one of Australasia's leading locally-owned technology businesses, with more than 6,500 people and $1.49 billion in revenue.

We have a track record of success in working with government agencies and companies at SME and enterprise level, and our teams are always solving for greater security, higher productivity, a more sustainable future, and to build better digital experiences for our customers.
