# Mobility Apps For SME

Introduction of OneApps – *Powered by Microsoft Office365* 

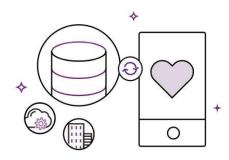

July 2023

#### What is ONEAPPS

### Rapid Mobile Apps Development

Connect to your systems and create new data

Build apps without writing code

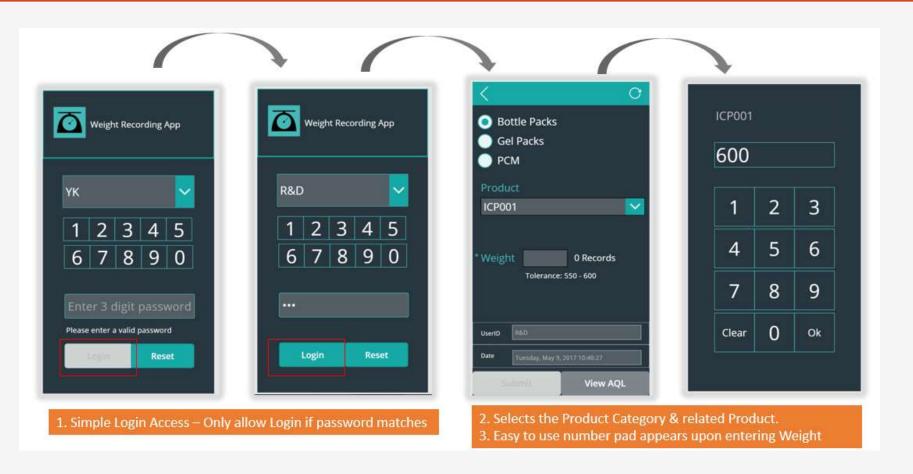

Publish and use on web and mobile

SharePoint Online	Office 365	Dynamics 365	Microsoft Azure	CneOrive	X I
Dropbox	Salesforce	Data Gateway	SQL Server	Custom APIs	Slack

# Sample Business App For Ops Recording (4 screens design)

# Sample Business App For Ops Recording (4 screens design)

# Supported by 3 Excel data files stored in cloud

Let's Get Started with OneApps

#### PowerApps & Flow D-I-Y Immersion Workshop (2~3hrs)

- Pre-Workshop Requirements Gathering (at least 1 week prior)
- Objective of the automation Vs Current Process
- Workflow design Frame the complexity and define the workshop scope and the post workshop scope (if required)
- Data Source/(s) Current / New? Workshop 1~2
- Sketch Paper Screens Keep to 2~3
- Dashboard & Reporting (Optional)
- Basic Concepts
- Templates & Guided Practice Steps

# Framing the Workshop for Simple approval Use Case

- 1. Since file has been digitalised, propose to drop file into a designated SharePoint library. This library will be made addonly access to submitters. This may be simpler than to re-create the fields in PowerApps.
- 2. Action of dropping file into the folder will render a valid submission.
- Approver goes into document folder and change status to Yes → triggers back email to submitter. If not approve, a
  rejection mail will also be sent. (provided submitters are on Office365 with outlook enabled). Create 1 level in
  workshop and participants build 2 additional levels for hands-on.
- 4. 1 Simple chart in Power BI / Excel Power Query to query online status of these submission.
- 5.  $2^{nd} 3^{rd}$  week October.
