*WE STRIVE TO BE A CLOUD SOLUTIONS
PROVIDER TO HELP BUSINESSES MAKE
BETTER DATA – DRIVEN DECISIONS*

Migrating from MicroStrategy to Microsoft Fabric and Power BI

*Modernizing Legacy BI for a Unified Cloud
Analytics Platform*

MicroStrategy®

Microsoft Fabric

The Challenge

Legacy MicroStrategy environment limiting scalability and innovation

High maintenance and licensing costs for on-premises BI systems

Siloed reports and manual refresh cycles slowing insight delivery

Inconsistent data governance and fragmented data models

Need for a modern, cloud-native analytics framework integrating Microsoft Fabric and Power BI

What We Offer

End-to-End Migration from MicroStrategy to Microsoft Fabric and Power BI

Seamless Transition – Migrate dashboards, datasets, and reports with full accuracy

Performance Optimization – Leverage Microsoft Fabric's Lakehouse and Warehouse for faster processing

Modern Visualization – Recreate interactive Power BI reports with advanced analytics

Secure & Governed – Implement centralized data governance and role-based security

What We Offer

Assessment & Planning - Analyze MicroStrategy reports, metadata, and datasets

Data Integration & Transformation - Load and model data in Microsoft Fabric Lakehouse or Warehouse

Report Modernization - Rebuild dashboards and KPIs using Power BI visuals and DAX models

Testing & Validation - Ensure data accuracy, query performance, and visual consistency

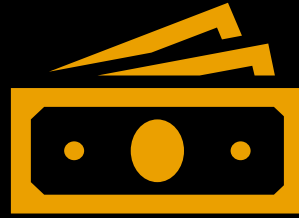

Deployment & Training - Publish reports to Power BI Service and train users for adoption

Key Deliverables

- **Migrated and validated Power BI reports replicating MicroStrategy logic**
- **Optimized Microsoft Fabric data model for performance and scalability**
- **Unified reporting environment for analytics and collaboration**
- **Documentation and training for business and IT teams**
- **Ongoing support and optimization for continued improvement**

Cost-Free Proof of Concept (POC)

PoC Scope:

- Use a portion of your MicroStrategy data and reports
- Build a sample Fabric Lakehouse and Power BI dashboard
- - Compare performance, visuals, and automation capabilities

Deliverables:

- Migrated sample dataset and Power BI report
- Summary of performance improvements and recommendations

Timeline: 5–7 business days

Why Choose Us?

Microsoft Data & BI Experts – Proven experience across Fabric, Power BI, and MicroStrategy migrations

End-to-End Support – From assessment to post-deployment optimization

Enterprise-Grade Solutions – Scalable, secure, and governed architecture

Proven Success – Track record of modernizing legacy BI platforms

Free Proof of Concept (PoC) – Validate results on real data before full rollout
