Power BI Paginated Report Development

Create pixel-perfect, print-ready reports with Power BI

DIS

Power BI

Need for Paginated Reports

- **Inconsistent Formatting:** Standard Power BI reports lack structured pagination for official documents.

- **Complex Data Sources:** Businesses struggle to consolidate data from multiple systems.

- **Manual Reporting Overhead:** Traditional reporting processes require extensive manual effort.

- **Limited Exporting & Automation:** Power BI's default visuals do not fully support detailed exports.
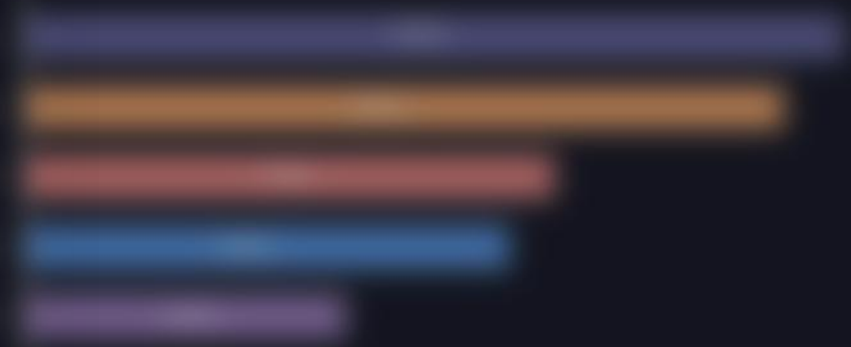

What We Offer

- **Highly Formatted Reports:** Create structured, multi-page reports with precise layouts.

- **Advanced Exporting Capabilities:** Export in PDF, Excel, Word, CSV, and more.

- **Data-Driven Insights:** Connect to SQL Server, Azure Synapse, and Power BI datasets.

- **Automated Report Scheduling:** Deliver reports at predefined intervals. **User-Driven Interactivity:** Enable drill-through, parameters, and dynamic filters.
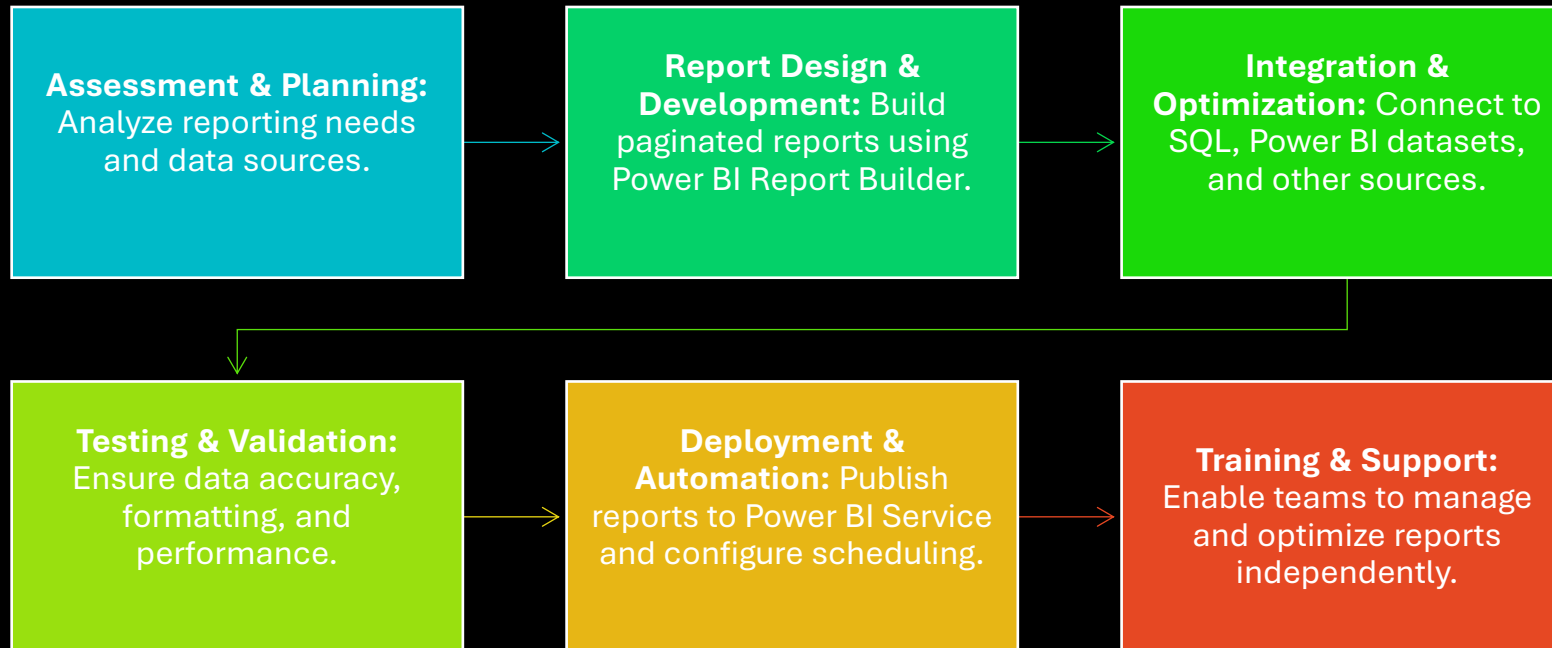

Key Deliverables

- **Print-Optimized Layouts:** Ideal for invoices, financial statements, and compliance reports.

- **Multi-Page Reports:** Handle large datasets efficiently.

- **Improved Data Governance:** Secure and scalable report delivery.

- **Advanced Formatting:** Supports headers, footers, page numbers, and custom branding.

- **Self-Service Reporting:** Empower users with interactive filters and drill-through options.

Cost-Free Proof of Concept (PoC)

We offer a **free PoC** to showcase the benefits of Power BI before committing to a full migration. Experience improved analytics and performance risk-free!

Implementation Approach

Assessment & Planning: Analyze reporting needs and data sources.

Report Design & Development: Build paginated reports using Power BI Report Builder.

Integration & Optimization: Connect to SQL, Power BI datasets, and other sources.

Testing & Validation: Ensure data accuracy, formatting, and performance.

Deployment & Automation: Publish reports to Power BI Service and configure scheduling.

Training & Support: Enable teams to manage and optimize reports independently.

Why Choose Us?

- **Power BI Experts:** Certified consultants with deep expertise in paginated reporting.

- **Seamless Data Integration:** Connect to on-premises and cloud-based data sources.

- **Optimized Performance:** Efficient report processing and automation.

- **Enterprise-Grade Security:** Ensure compliance with secure, role-based access.

- **Ongoing Support & Training:** Dedicated assistance for smooth adoption.
