Windows 365

Hybrid Windows for a hybrid world

Welcome to your Windows 365 Cloud PC

A new solution for today's
hybrid workforce

Your content
wherever you go

Compute options
for different users

Consistent settings
across devices

The **apps** you need,
when you need them

Scalable storage
based on your needs

Integrated **unified
security** and
identity management

Windows 365, your Windows in the cloud

Loved by users

Streamed to any devices

Always ready and updated

Personal and familiar

Trusted by IT

Scalable and resilient

Predictable costs

Simple to buy, deploy, and manage

Works seamlessly with Microsoft cloud services

What it means for your **business** workforce

For a business of hundreds or a business of one, Windows 365 securely streams your personalized Windows desktop, apps, settings, and content from the cloud to any device.

End users

Unlock the potential of your people, giving them a personalized experience on any supported device, streamed securely from the Microsoft cloud.

Business

Enable hybrid work scenarios to unlock new opportunities, improve business continuity, and mitigate risk.

IT

Get started quickly with a turnkey solution that is easy to buy, deploy and manage.

Windows 365 unlocks **enterprise** hybrid work scenarios

Data security

Improve regulatory compliance and IP protection via data centralization and a reduced threat surface.

High-capacity computing

Cloud-scale compute and storage to support specialized workloads like design and development.

BYOPC programs

Enable secure Cloud PCs, even on personal devices.

Disaster recovery

Help ensure continuity and access for your workforce and company data even in the most challenging circumstances.

Temporary workforces

Simplify and accelerate the onboarding and offboarding process for elastic workforces.

Mergers & Acquisitions

Provide seamless transitions and access for growing businesses.

Selecting the right solution Business vs. Enterprise

Windows 365 Business

Windows 365 Business is designed for businesses that do not have an Azure infrastructure available. The benefits are that the setup is easier and can be done by the employee her/himself. The downside is that Microsoft Endpoint Manager (MEM) policy driven provisioning, management and guided scenarios cannot be used.

- ✓ Simple purchase through windows365.com
- ✓ Available with Windows 10 & 11
- ✓ Basic administration using Windows 365 portal and M365 Admin Centre
- ✓ No Azure subscription required; no licensing pre-requisites required
- ✓ Supports native Azure Active Directory join (AADJ)
- ✓ Limited to businesses < 300 users

Windows 365 Enterprise

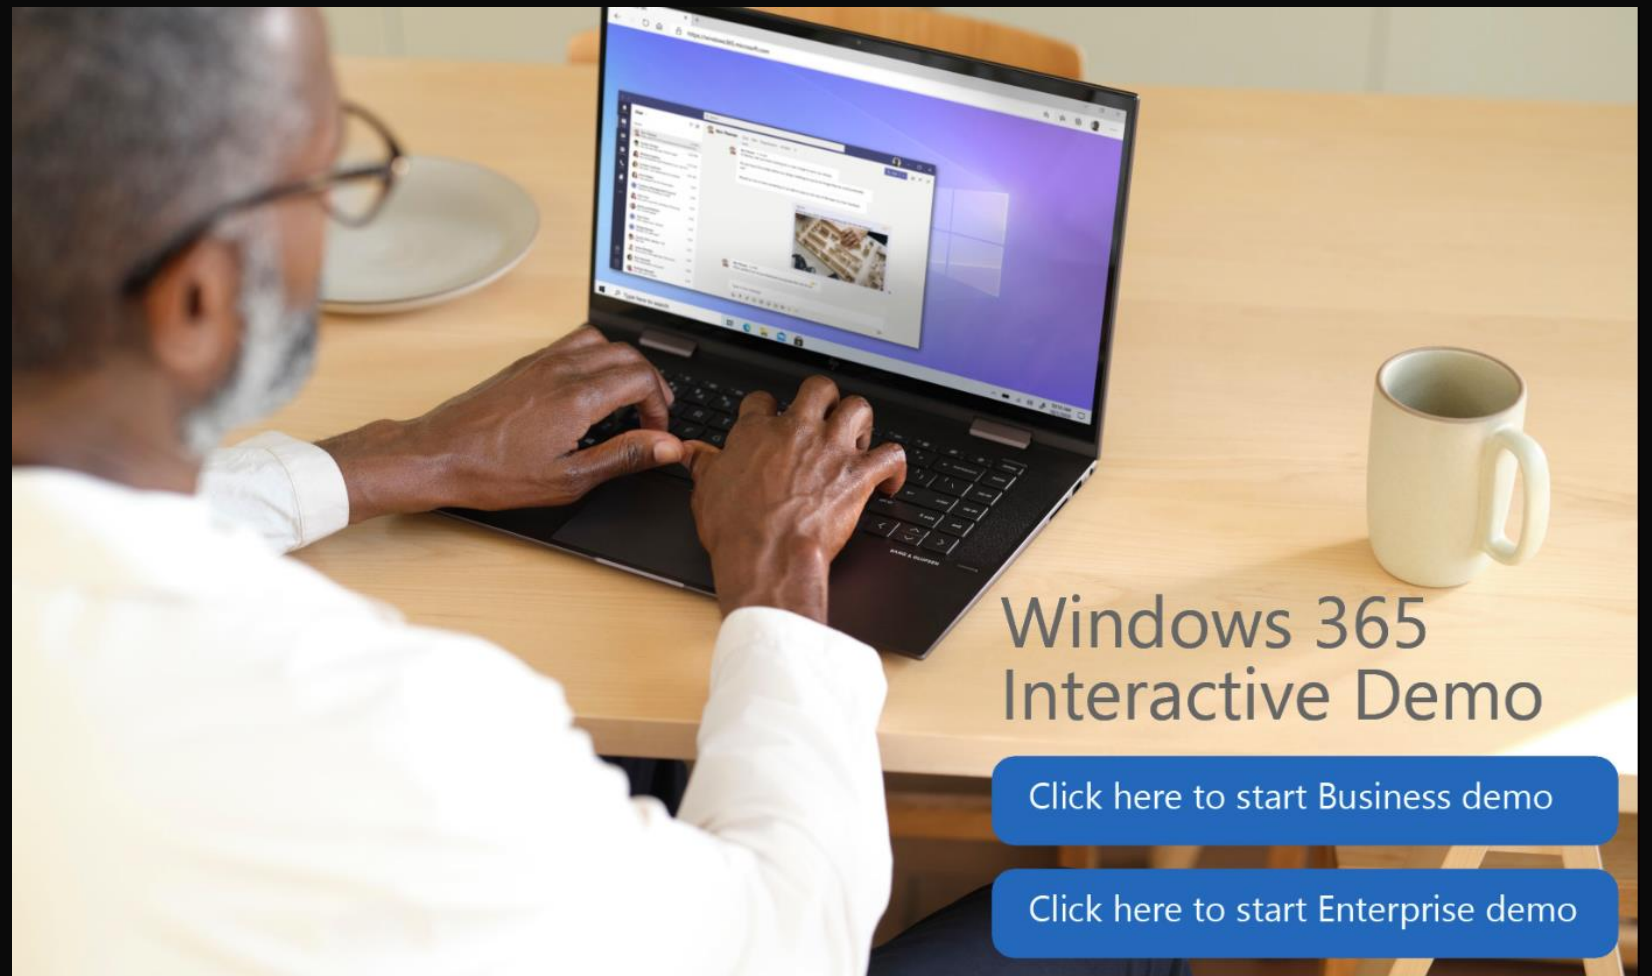

Windows 365 Enterprise is designed for businesses that have an Azure infrastructure that they can leverage. Companies can easily deploy multiple W365 licenses at the same time and use MEM to driven provisioning, management and guided scenarios. More customization possibilities and endpoint analytics are available.

- ✓ Deploy & manage through Microsoft Endpoint Manager
- ✓ Must be licensed for Windows 10 or 11 Enterprise, Microsoft Endpoint Manager, and Azure Active Directory P1
- ✓ Azure subscription optional
- ✓ Supports Azure AD Join (AADJ) or Hybrid Azure AD Join
- ✓ Unlimited number of users

Windows 365 Product licenses SKUs

Cloud PC CPUs, RAM, and storage	Example scenarios	Recommended gallery image	Recommended apps
2vCPU/4GB/256GB 2vCPU/4GB/128GB 2vCPU/4GB/64GB	Mergers and acquisition, short-term and seasonal, customer services	Windows 10/11 Enterprise with Microsoft 365 and Teams	Microsoft 365 Apps, Microsoft Teams (Audio only), OneDrive, Adobe Reader, Edge, line-of-business app(s), Defender support.
