Balancing security, compliance, and usability is a significant challenge, requiring digital data exchange platforms that seamlessly integrate with a wide variety of applications and workflows.

DATAMOTION OVERVIEW ⌄

DataMotion enables organizations to leverage no-code and low-code experiences to quickly and efficiently integrate secure data exchange into their workflows, elevating productivity, compliance, and CX. Our platform includes a robust set of full lifecycle RESTful APIs and standards-based protocols that seamlessly enable and enhance disparate systems and applications, including Salesforce, Genesys, Microsoft 365, Microsoft Teams, and Okta, along with a wide range of customer-facing apps and portals, to securely exchange critical messages.

Our solutions promise significant cost reductions, increased productivity, rapid data delivery, and improved CX. We have over two decades of experience meeting the demanding needs of enterprise organizations, transparently integrating robust military-grade encryption that follows a trust no one, trust nothing approach, ensuring the highest compliance and data protection levels.

DATAMOTION PLATFORM ⌄

The DataMotion Platform, an enterprise grade, modular system designed for resilience and high performance, is tailored to meet your unique business needs. We offer robust solutions including full lifecycle RESTful APIs, no-code solutions, and pre-configured tools, facilitating secure, seamless data exchange. DataMotion isn't just a service, but a scalable, value-driven platform, enhancing operational excellence as your business evolves.

	API & Transmission Protocols	No Code	Pre Built
Secure Message Center	Y	Y	Y
Direct Secure Messaging	Y		Y
Secure Forms	Y	Y	Y
Content Filter/DLP			Y
Managed File Transfer	Y		Y

BENEFITS ⌄

1 **Improved UX and CX**
Secure Message Center seamlessly embedded within native applications and portals to provide an optimal experience.

2 **Workflow Efficiency**
Employees participate in secure exchange from their existing enterprise systems and applications without leaving their native workflows.

3 **Scalability and Flexibility**
Customizable low and no-code solutions enable rapid cloud-based deployment, from pilot to high availability mission-critical.

4 **Verifiable Compliance**
Messages and attachments are logged and tracked for compliance with regulations including PCI DSS, GLBA, FINRA, and CCPA.

5 **Seamless Integration**
Seamlessly integrates and elevates applications, including Salesforce, Genesys, Microsoft 365, Microsoft Teams, and Okta, along with a wide range of customer-facing apps.

6 **Time to Market**
No-code experience provides easy drop-in technology, deploying solutions in days vs. months or years, enabling quick response to market demands and rapid innovation.

7 **Ironclad Security**
Zero-trust design and military-grade encryption. Trust no one, trust nothing design. SSO and IdP integration. To ensure data integrity and confidentiality.
