Core competencies

DataON is a hybrid cloud computing company focused on delivering:

- IT modernization technology assessment for on-premises compute, storage, and virtualization infrastructure
- Complete, turnkey Microsoft enterprise-level hybrid-cloud computing and storage infrastructure
- Solutions for state, local government and education, including cybersecurity to combat ransomware issues, disaster recovery for business continuity, and data governance through VM migration
- On-premises Microsoft Azure Stack HCI solutions for primary enterprise data centers, branch office / remote office and edge, virtual desktop infrastructure (VDI), high performance Microsoft SQL Server, trusted enterprise virtualization and security, and scale-out storage
- Validated Intel Select Solutions for Microsoft Azure Stack HCI, SQL Server and artificial intelligence (AI)
- Backup and disaster recovery solutions and designs with Microsoft solutions
- Backup / disaster recovery / ransomware solutions with Veeam Ready appliances with ransomware air gap
- On-premises RAID storage systems and intelligent edge appliances
- Cloud-based Microsoft Azure Services
- Data center consulting, deployment, management, and monitoring services

Differentiators

Our company helps enterprises and government and education customers with cost-effective Microsoft-based solutions that are vigorously tested and validated by Microsoft and Intel for the highest performance and reliability. With over 1000 Windows Server clusters and 150PB of HCI clusters deployed, DataON offers more validated Microsoft Azure Stack HCI solutions than any other vendor*. DataON is also the first to offer a validated Intel Select Solution for Azure Stack HCI. Our dedicated focus on providing Microsoft solutions gives us an expertise unmatched by any other vendor for Microsoft-based solutions.

DataON is a proven vendor with over 650 satisfied customers, including over 30 government and education customers. We provide a complete and turnkey experience, offering white glove service that is unique in the industry. DataON is a Microsoft Gold Partner, Microsoft Cloud Service Provider (CSP), and an Intel Platinum Partner. Our servers are manufactured by Intel.

Corporate Data

Founded in 1987, DataON is a 100% United States-owned and based small business with over \$16M in annual revenue and 30 employees. DataON has over 650 customers in the United States and around the world.

- CIO Review: 20 Most Promising Microsoft Technology Solution Providers 2018
- Storage Review Editor's Choice Award (2019): DataON and Microsoft Azure Stack HCI solution
- Microsoft Gold Partner for Datacenter
- Microsoft Cloud Service Provider (CSP)
- Intel Platinum Partner for over 10 years
- Over 1000 Windows Server & 650 HCI clusters, and 150PB storage deployed
