

# Dataprise Direct-to-Azure Backup-as-a-Service

As a Platinum Veeam® Cloud & Services Provider, we understand the need for fast, reliable, and easy-to-use features that ensure your data is backed up and recoverable in the event of an outage or disaster.

Our managed Direct-to-Azure Backup offering seamlessly backs your data up to a dedicated Azure environment to ensure your data is kept separate and secure for fast possible recovery.

## Fully Managed Backup to Increase IT Resiliency

With Dataprise Backup-as-a-Service, your organization benefits from:

**Automated & Secure Backup:** Data is backed-up with best-in-class encryption, ensuring data both in-transit and at-rest is encrypted

**Redundant Storage in Microsoft Azure:** Backups are stored in your dedicated, secure Azure tenant

**Backup Management:** Through full management and monitoring, backup issues are identified and remediated quickly

**Reporting:** Gain visibility with weekly backup and repository health reports

## Advantages for Dataprise Direct to Azure Backup-as-a-Service with Veeam

### Monitoring & Reporting

- Continuous monitoring of the local and remote backup environment
- Real-time status shows recoverability
- Daily updates of current local and remote restore points
- Single pane web portal

### Support

- 100% Veeam-focused
- Deep level of Veeam expertise
- Assistance with configurations and support at no additional cost

### Testing

- Automated health checks of backup files
- Status monitoring of local appliances with testing for low memory, disk space, anti-virus, and Windows update compliance
