Giving You End-to-End Continuous Delivery  
On Microsoft Azure That Accelerates Sitecore  
For Both Development & Marketing Teams

Ready to deploy Sitecore or trying to migrate Sitecore to Microsoft Azure PaaS, but don't know how to get started, manage it and keep it up-to-date?

It's likely that you are experiencing some of these problems:

- ▣ Lack of DevOps skills in team
- ▣ No one to call when it breaks
- ▣ Struggling to achieve “best practice”
- ▣ Trouble retaining staff
- ▣ Old, OnPrem environments
- ▣ Developers distracted by DevOps
- ▣ Often saying ‘no’ to marketing
- ▣ Lack of documentation
- ▣ Poor or no DR process

## WHAT DO YOU GET?

We provide Sitecore at the speed of marketing; end-to-end continuous delivery on Azure PaaS that accelerates Sitecore for both development and marketing teams.

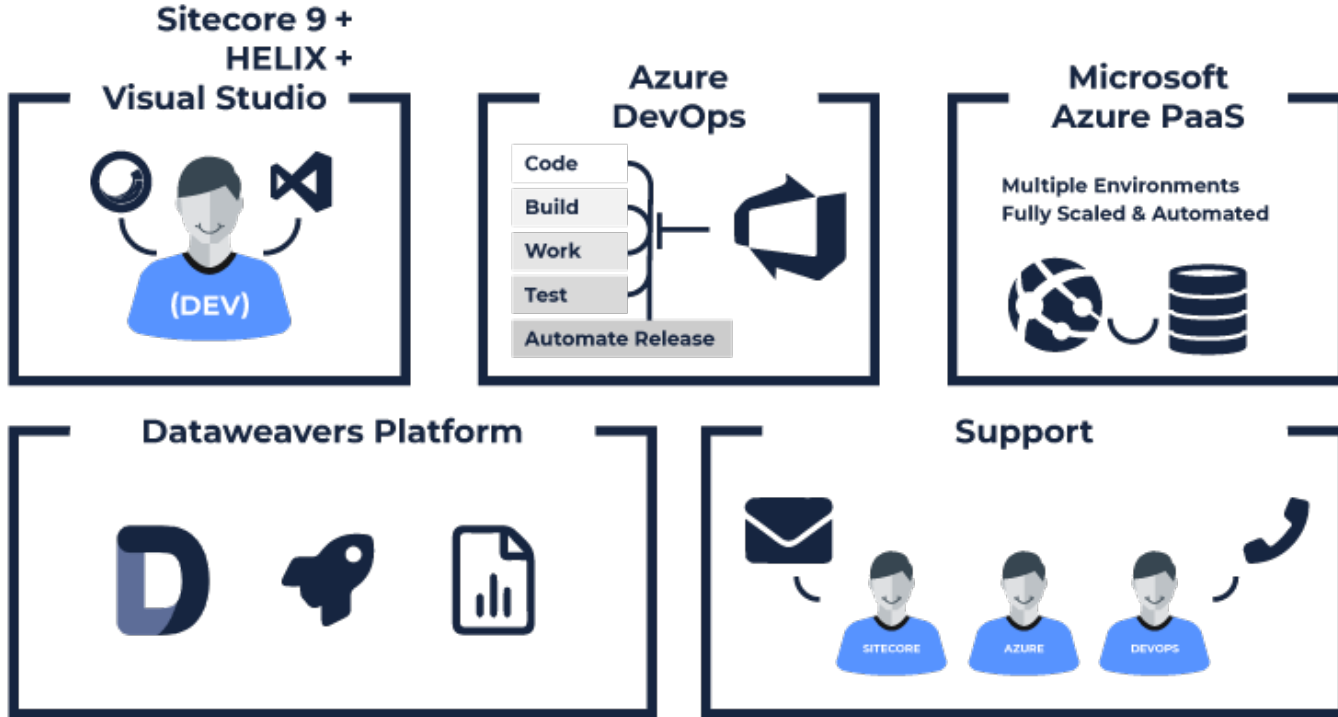

You'll have **secure, audited, maintainable** and **compliant** infrastructure as code, that allows you to **automate PaaS deployments** with one click.

Being 100% aligned with **Sitecore best practices** streamlines the developer experience; allowing them to spend less time fighting infrastructure fires and **more time coding**.

Your marketing team will be able to access more features in your MarTech platforms, allowing them to rely less on other teams and **do more marketing**.

**We are passionate about helping complex organisations be nimble and act quick**

# HOW DOES IT WORK?

# BENEFITS

CIO	CTO	CMO
Consistant Delivery	Peace of Mind	Do More Marketing
Repeatability	Maximise Licence Usage	Access More Features
Speed to Market	Say YES to Marketing	Hone your Marketing IT

## LIFE WITH DATAWEAVERS

- Deploy Sitecore in as little as 30 minutes.
- Automatically scale instances, computing power, and RAM and take advantage of fully automated and repeatable provisioning.
- Natively supports Microsoft Azure services
- Integrates with your existing back-end systems and marketing investments with connectivity to Microsoft Dynamics, Marketo, and Salesforce.
- Meets all enterprise compliance and security requirements.
- Reduces costs associated with on-premises infrastructure; Azure optimizes budget with pay-as-you-go metering.

Let us show you how fast your Sitecore team can go and get a free licence audit and topology recommendation today.
