App
Challenge

Best Productivity App
on MS Teams

What is Beagle?

Beagle is a conversational B.I tool that
drives data analytics adoption across the enterprise.

Insight Cards
Get real-time access to data

Natural Language Interface
Converse with your data

Beagle is breaking functional silos and
encouraging data democratization – the
absolute need for the future facing
organizations.

- **15x faster analysis compared to any other BI Tool**
- **Zero code B.I interface**
- **~90% lower cost of New Analytics dashboards**
- **Creates any new report within minutes**
- **Interoperable with other BI platforms**
